Choice of a New Generation

Goddard High School

We will set the motion for the years to come, and by our pace will others walk into the future. So it is important to make the right choice now, to build on each other and to develop a sense of self, seeking only the best, for we have a lot to live for.

Right now we are becoming the future of tomorrow's world, and what a world we will make it! As the sun rises and sets we grow and become the choice of the New Generation.

GHS Makes The Choice

Students Learn to Enjoy Learning.

What a face! Jim Allen looks pretty while making his famous pizza.

Having a good time, not only out of school, but during school, is very important. It builds personality and helps students to enjoy themselves in all situations! Activities, talking and laughing with friends, and just plain getting "crazy" are all incorporated into an academic school life, for what would one be

without the memories made by just being with friends and teachers. Daily the family of Goddard Senior High comes together to smile, make friends, and most importantly, enjoy learning. This is why students "make the choice" to enjoy school.

"You're a senior, so what the 'heck'!"

The Choice To Learn

Learning to make the Right Choice

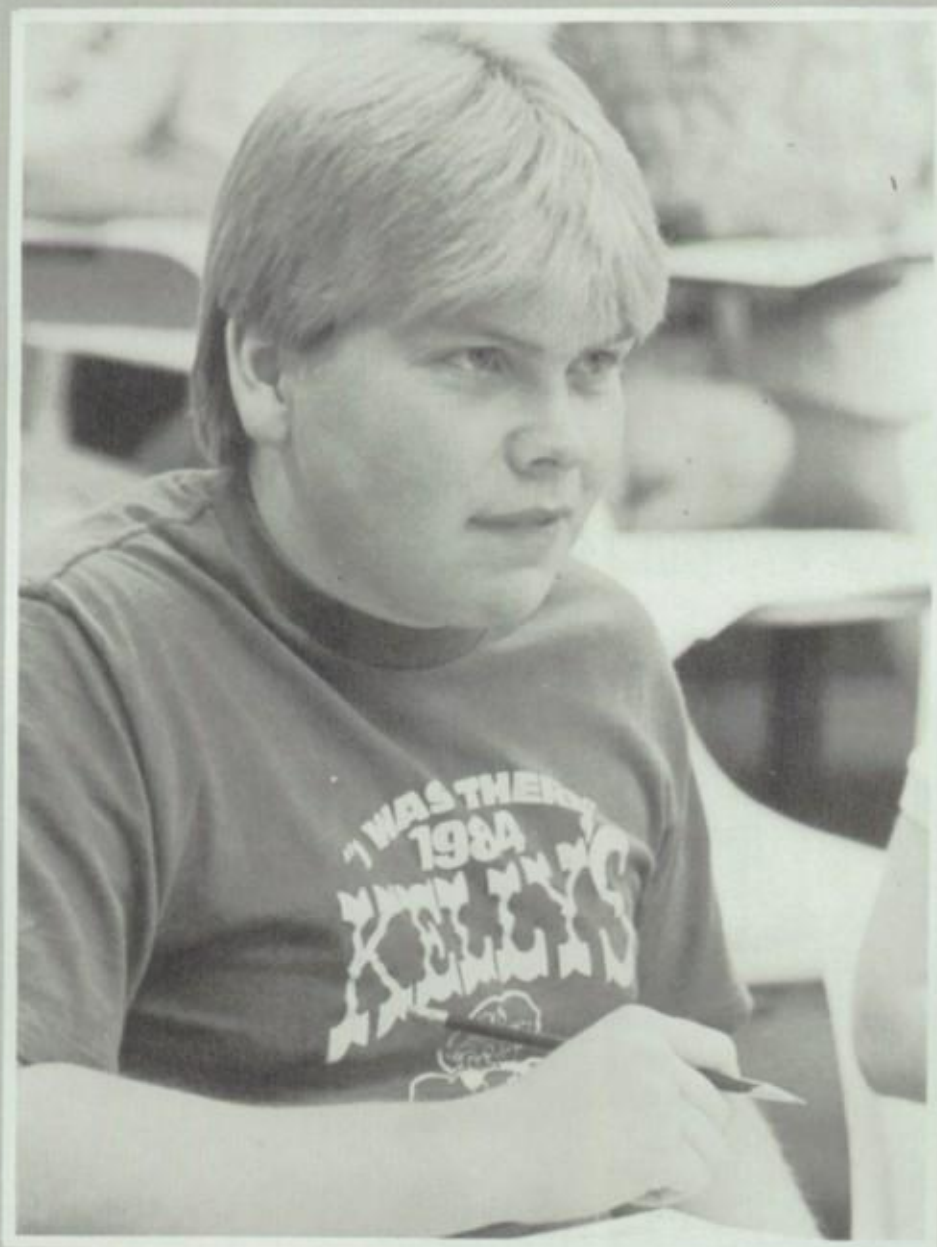

S. Payne takes a relaxing break in the sun.

Entrance into high school almost unavoidably leads to planning for one's future. Students concern themselves more with grades and consider whether or not college is right for his or her goals. College-bound students begin the search for the right school, scholarships, and financial aid, while others whose plans do not include further schooling after high school, try to secure a job to prepare him or herself for the "real world".

High school fills the gap between adolescence and adulthood.

During this process of "seek and find", students continue their day-to-day education. This learning is not only in academics but also in the knowledge of people. High school fills the gap between adolescence and adulthood. Students learn to control amounts of stress and responsibility, which motivates perseverance.

In this way, high school education is developed into an ever-expanding awareness of oneself and mankind in general, forming a solid sphere of assurance to last a lifetime.

Hard at work. Scott Henderson watches intently, but what is he really thinking about?

Celebration. Some football players celebrate after winning the homecoming game.

Important Decisions

Quest for the Future

Pig out. Mr. Jones, Mr. Wacker, and Mr. Wacker make a feast at the teacher's breakfast.

High school brings on many important decisions. The biggest is the quest for the future. High school is a continuous preparation for the decisions that will form tomorrow's adult lives. Each small problem that is solved during the three years prior to graduation builds up confidence for the life changing situations that must be faced once one is on his own. This experience in dealing with more trivial problems paves the way for making competent choices that are right for that individual.

'What homework? Let's get crazy!' Angie Weber

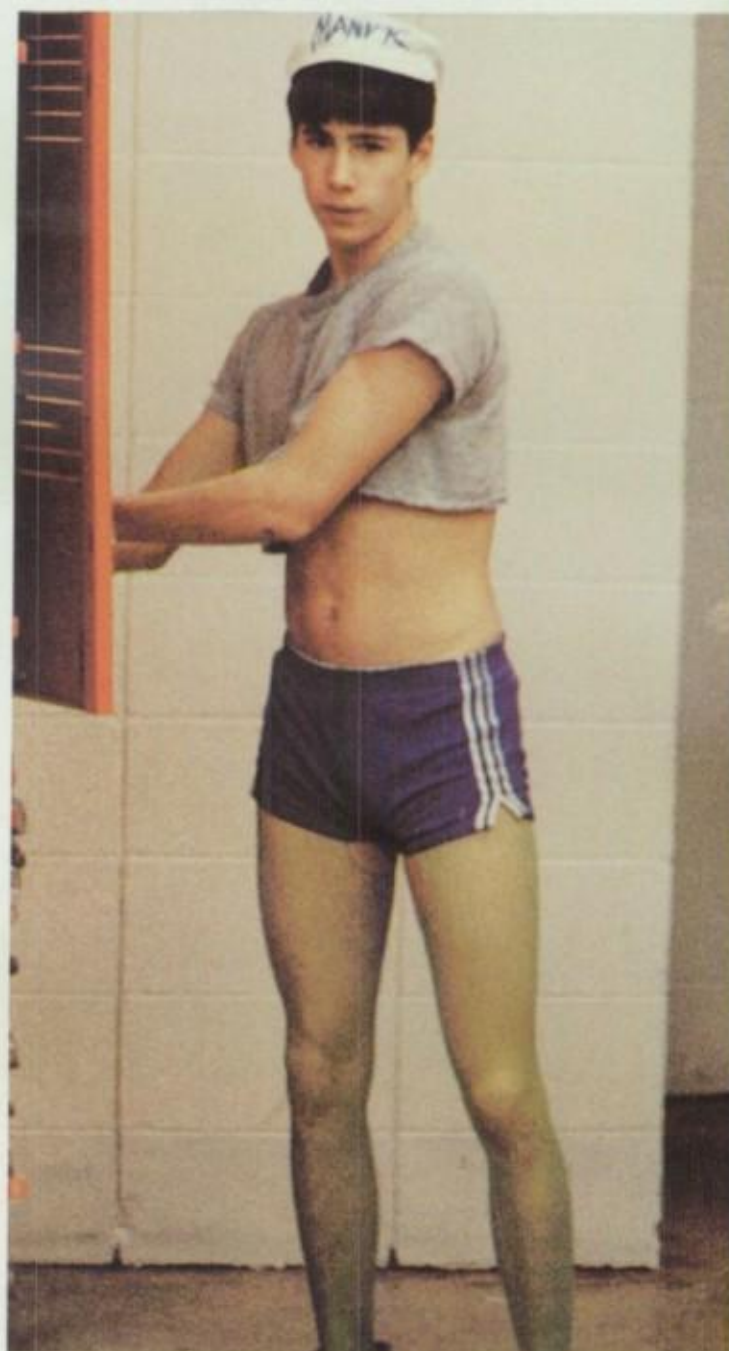

Debbie Edgington concentrates at the Blood Mobile.

Daydreaming? Becky Lillibridge looks thoughtful as Mark Pannell, David Harden and Eric Crowell are hard at work.

Caught! Billy Baker stands pretty at the locker room lockers.

Each small problem that is solved builds confidence.

Proud Scott Henderson escorts Tina Nunnelly through the Homecoming ceremonies.

Outrageous! Some of the "gorgeous" male teachers imitate the cheerleaders at a pep rally.

Just Starting Out

Students start another year.

Locker combinations remembered, schedules emblazoned in the mind (only to be wiped away at year's end), friends gathered at break in the commons area for updates on anything missed, new attitudes and goals set, and so the newly awakened school year is begun.

Each individual's attitude reveals which class he or she belongs to. Sophomores uncertain faces peer through clumps of friends and stare blankly yet uneasily at the clock. Juniors find a comforting security in semi-obscure. Striding down the halls with no obvious cares come the unconcerned, happy-go-lucky seniors to accept their reign.

Returning to school after the summer vacation brings on the usual routine associated with school life. The need for a regular waking hour is re-instated as is time for studying. The first few days of classes are a repeating of rules and lessons that have already been learned before. But the continual learning and re-learning process of high school molds students into responsible adults.

Blow your horn, Brad. Brad Hawk show the crowd his talent.

Snowblind. Winter time is often so beautiful.

And the winner is ... Rick Bowden, our government teacher, ran for office of State Representative, and won!!

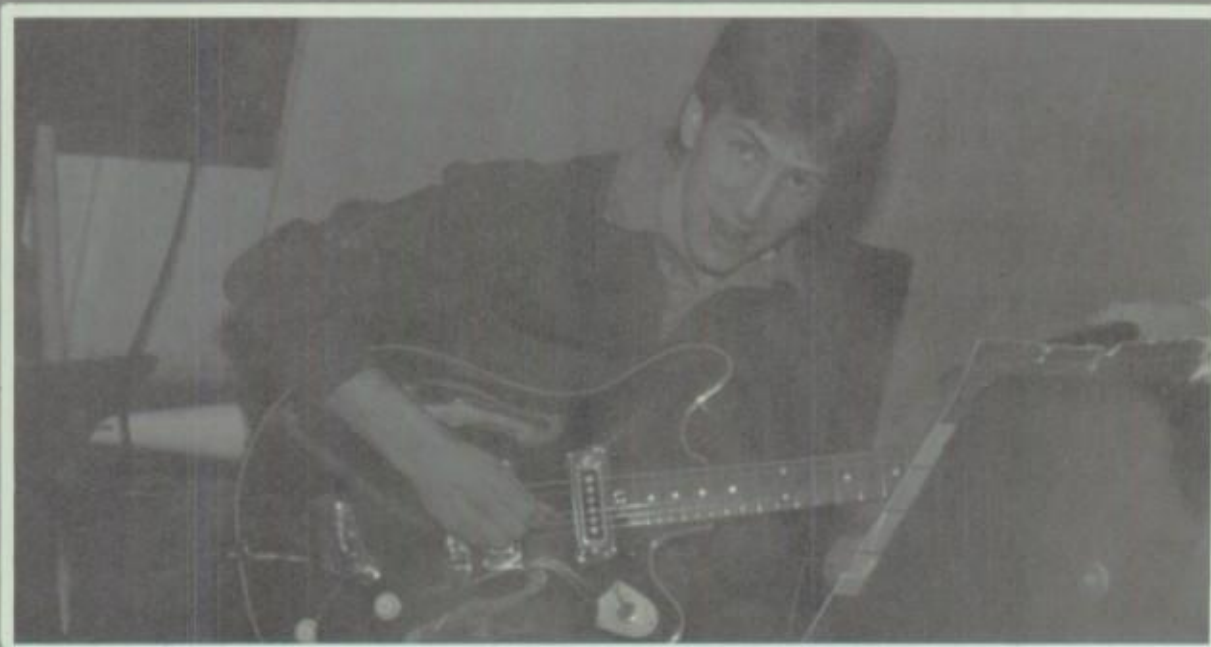

Deep in thought. Jim Foltz contemplates two important firsts in his life — his first year at Goddard High and his first child, a girl.

The next Van Halen?? Doug Irion practices his guitar skills and dazzles the audience.

One proud carpenter, Jim Garden shows off his talent, and quite a talent it is.

"The good news is: a senior gets first choice of classes. The bad news is: you leave behind your friends."

Kenny Bell

We Take The Test *You've got a Lot to Live*

Each and every day at GHS is an experience all in itself. The schedules, the books, and the locker combinations stay the same, yet new horizons wait behind each door as students converse in the happenings of "to-day". Learning becomes a new experience and challenges are easily conquered when one feels good about himself. This is an important aspect in the process of growing up — learning to love the person you are, and building a self identity completely different from any other person encountered.

New ideas are born out of fresh, young, aspiring minds, and pride takes over with a sense of self when these ideas are put into action. Whether it be college, a votec school, or beauty school one decides is in his or her plans for the future, taking the test for adventure is the keenest run for life.

Jay Dumcum tips his hat to spirit day.

Love at first bite? Rick Scheer attempts to act sexy, European style.

Quite the gentleman. Whitney Blake and Wendy Packard share some punch at the Homecoming dance.

Come rain or shine, Janet Davis watches in awe as the Lions play on in the rain.

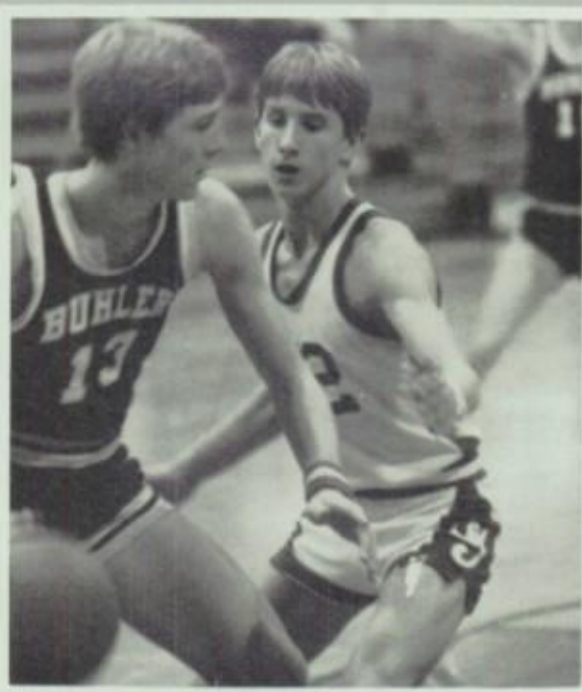

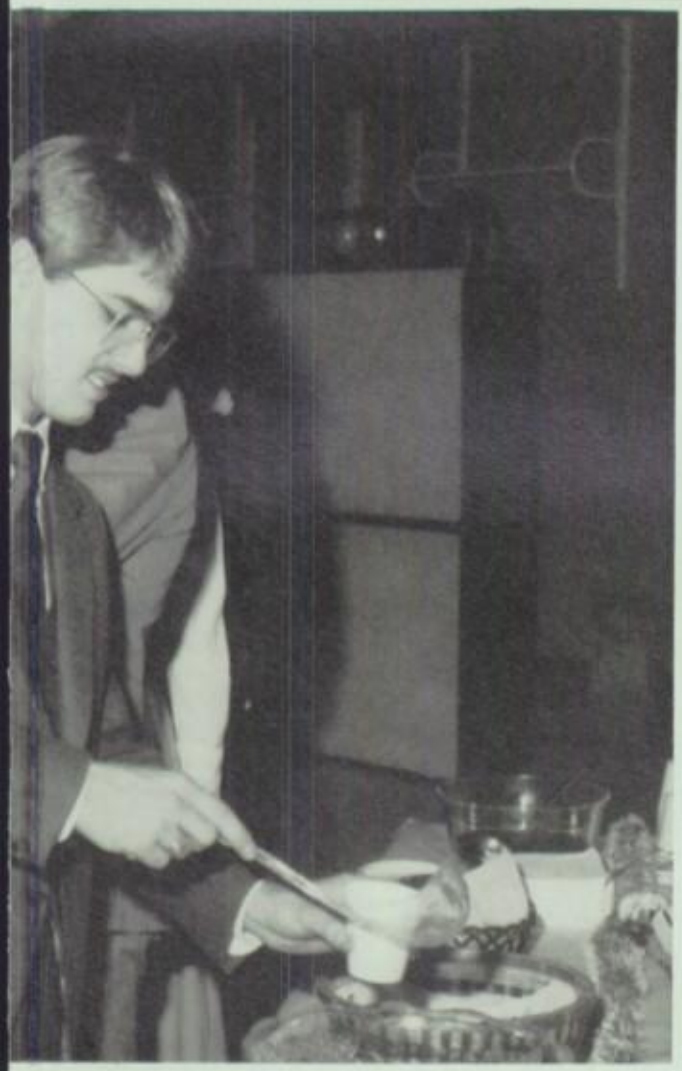

GHS is not just a building, it is also the students and teachers. Combined, they make the school. Every person who enters changes the school forever, adding something to the school, and leaving behind one's own print. Each graduating class leaves a hollowness in the center of the student body for the next class in line to fill, and all sophomores must move up to make room for a new generation.

As times continue to change, we are called upon to choose for ourselves what we believe is best. Our individual preferences and decisions are never quite alike, but each is important in forming a generation of completeness. Whether our sights rest in academics or athletics, non-conformism or being like everyone else, there is always a space reserved for each student and personality.

In the all-too-soon future we will look back on our high school years with a special fondness. A fondness with the knowledge that in making the student body, we were a part.

Climb aboard!! A gang of Junior boys show off for the camera.

Stand by your man. Jeff Roberts plays a hard game of basketball against Buhler.

The GHS staff gets together for some fun and games.

Teacher Astronaut

Mr. Schartz Chosen as Candidate

After having signed up for NASA's Teacher in Space Project, two GHS teachers were chosen to be among the five finalists in Kansas out of one hundred and seventy applicants. Mrs. Darlene Criss and Mr. Barry Schartz were interviewed in Topeka in April with the other three Kansas contestants. Only two teachers were eligible to go on to the national level, fortunately, for both he and Goddard, Mr. Schartz was named one of the two.

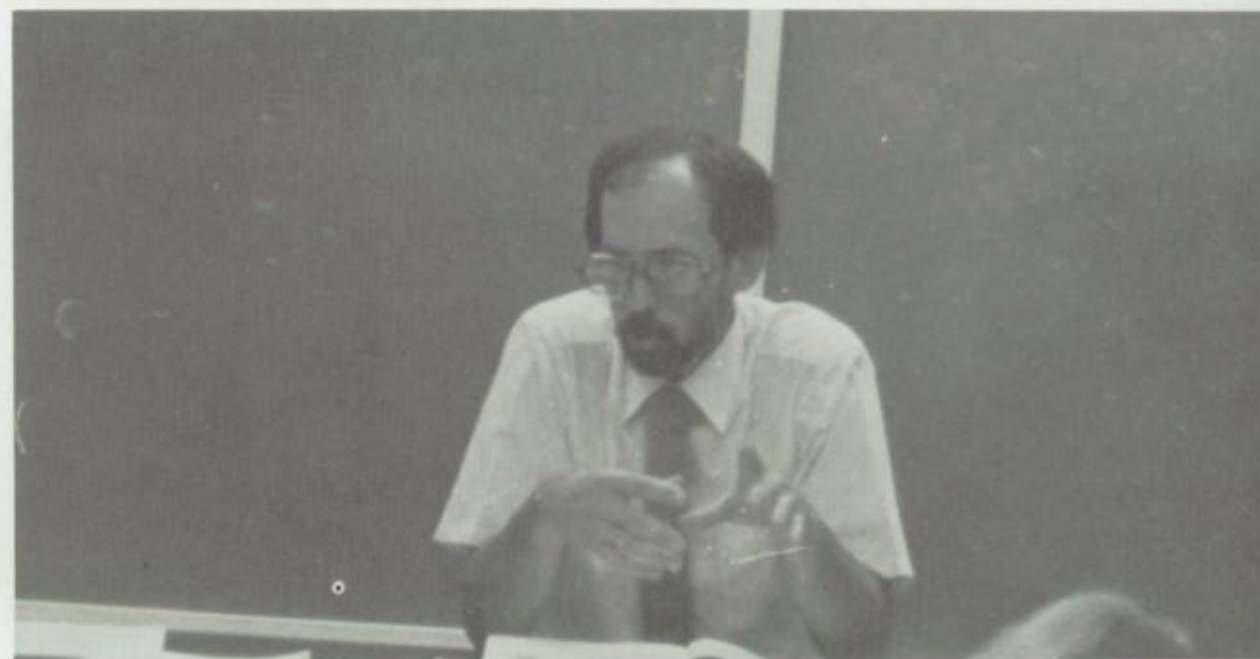

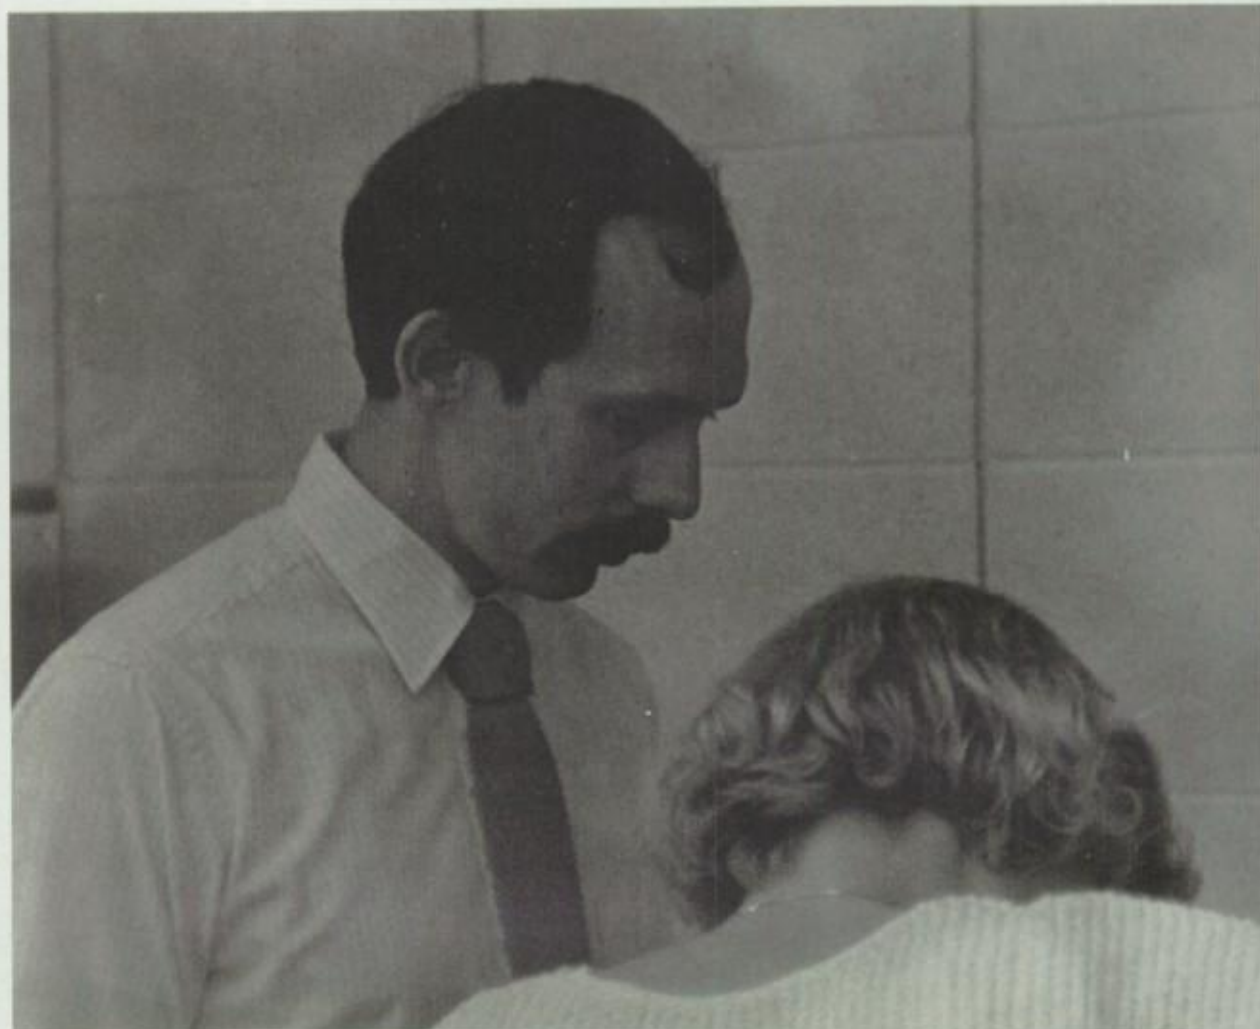

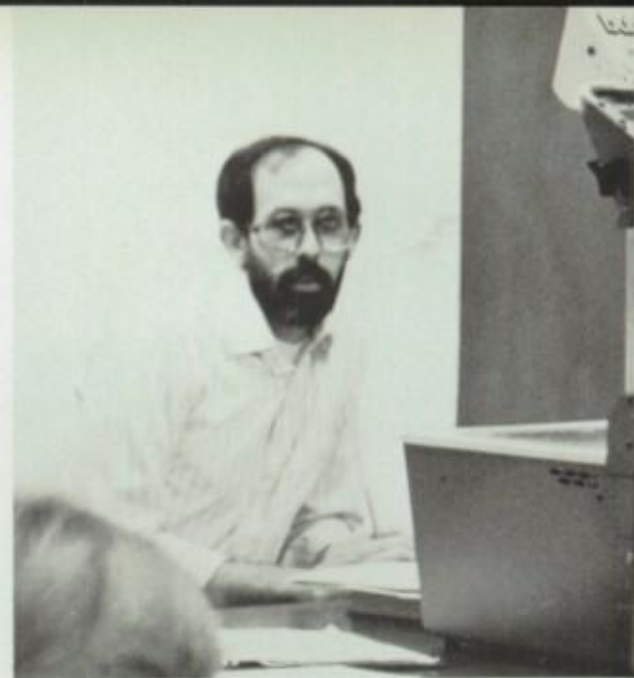

Mr. Schartz, head of the Science Department at GHS, is to go to Washington D.C. in June for a series of workshops, interviews, and Congressional receptions. There, ten contestants are to be selected out of the remaining one hundred and eighteen. Those ten will return to Washington in July, fly to Cape Canaveral, Florida, to watch a shuttle mission begin, and on to Houston, Texas, where NASA will make the final decision of one teacher and one alternate teacher. The flight of the Space Shuttle Challenger carrying the first teacher into space is planned for January 1986.

Mr. Schartz was named 1984 Kansas Outstanding Biology

Teacher and has also been previously named Kansas Master Teacher.

In the government department, Mr. Bowden left when he won the 93rd district of the House of Representatives. Two new faces joined Goddard, also — John Markham and Diana Redger who took over for Mr. Bowden. Also, Rosemary Miller joined Goddard this year from Buhler, where she was the head of the English Department there. We would like to welcome you to Goddard and hope you will stay.

The Executive Branch

The decision is theirs.

Although the administrative staff is considered the "Bad Guys" of school, they really have a tough job. Their decisions affect the students and faculty every day. Even though sometimes it may not seem like it, they are actually trying to help us, even when it means detentions or suspensions. Their main goal is to protect the students and be sure they are able to get a good education. Mr. Watkins, the Assis-

tant Superintendent at Goddard, makes sure we have enough money to have classes. He also makes sure we have the money for the great sports programs here at Goddard. The Board of Education has a lot ahead of them also. They have to make sure the students can have fun at school while still getting an education. The decisions they make can affect the students in numerous ways.

The Quiet People

Friends work hard behind the scenes.

In the Goddard Senior High there are the people who work hard and don't get much recognition. The people involved cook our lunch and make sure the school is clean and warm in the winter. The secretaries have to know where the students are at

each time of the day.

This year in Goddard High School, there were some changes in the Science and Math departments. Mr. Schartz won the Outstanding Science Teacher Award for Kansas. Tom Audley and Jim Foltz both came to Goddard this year. Mr. Audley is from Winfield, while Mr. Foltz is a graduate from Goddard. He was also the assistant editor of the Goddard High School yearbook in 1977. We wish them both the best of luck at Goddard High.

Home Learning In School!

Teaching the necessities of life.

While attending Goddard High School, students have a wide variety of electives to choose from. They are involved in the departments of home economics, physical education and the industrial arts. In these classes, students learn the crafts of making a living and how to survive the real world. Home economics teaches one how to cook and sew. The industrial arts department teaches the basics of auto mechanics and how to maintain a vehicle, and also the safe and proper use of power tools. These classes help relieve the pressures of school. Some students at other schools think of electives as an easy way out, whereas the students at Goddard take them very seriously.

Arguing Their Way To The Top

Debate Goes to State

This year was one of the best years for the debate team. Four of their members, Kathy Downey, Debra Edgington, Ryan Hodge, and Philip Michelbach, qualified for the State Tournament at Fort Hays, Kansas.

The four members had a very successful season. Kathy and Debra placed second at Wellington, and third at Valley Center and El Dorado; they went five rounds at the National Forensic League Tournament which placed them in the top ten; and at Regionals they placed first. Ryan and Philip placed third at Manhattan, fourth at Valley Center, and second at El Dorado; they went six rounds at the National Forensic League Tournament and also placed in the top ten, at the Debate Coaches Invitational they placed fifth; and they also placed first at Regionals.

These four people put many hours of dedicated hard work to earn their goal of going to state. They set their minds to reach this goal before the season started. They were very determined. After Regionals they traveled to Fort Hays University to fulfill their goal. Debra, Philip, Kathy, and Ryan put many hours of hard work to good use and placed fifth. They helped to make this the most successful season ever in GHS history.

"These four people have established winning as a tradition in Goddard Debate. They've set a standard that debaters in the future will strive to equal."

Putting It Together

Yearbook Staff Hard at Work

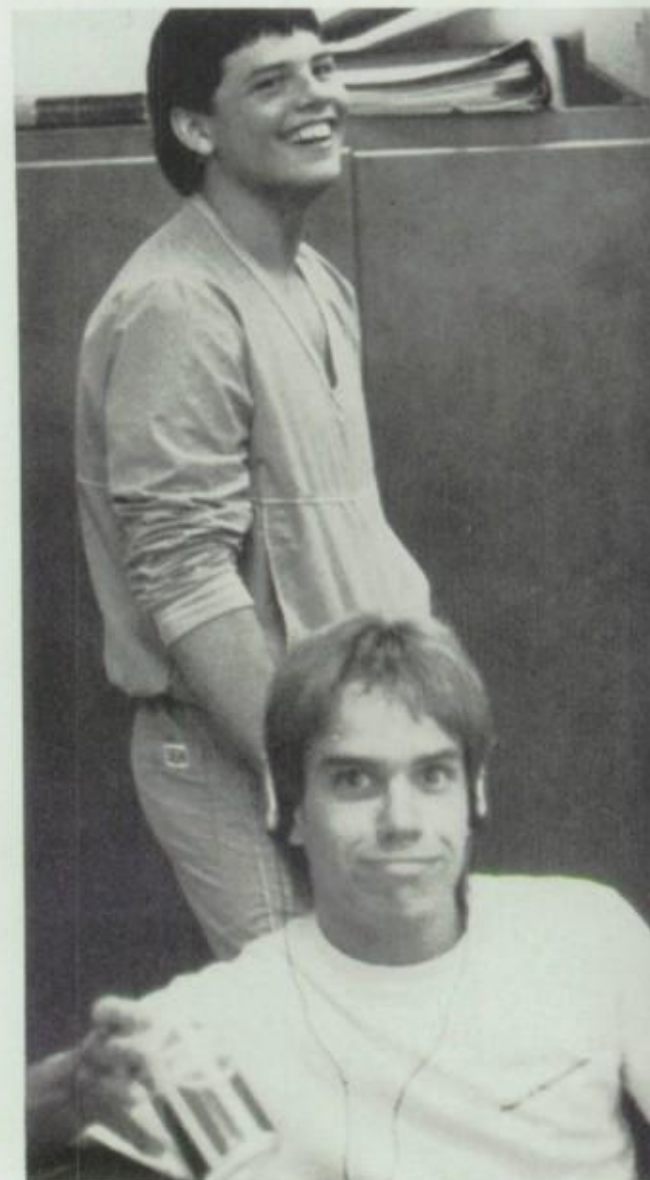

Yearbook is a class that requires determination and steady work. All school events must be photographed, photos must be arranged into a lay-out which must also include captions and copy. The copy must then be typed and the entire page must be turned in before the set deadline to be edited.

Camp for learning yearbook skills is held in August for staff members, and the rest of the year is devoted to the book's organization.

The yearbook is a continual planning process from the front cover to the back, and staff members take on the responsibility of selecting proper material for each page in between.

Clay Bourbonnais enjoys his work as layout artist.

Cheerleading Is Tough Job

Cheerleaders Appreciate Support of Fans

Wendy Johnson's enthusiasm shines when she is cheering.

The Football Varsity Cheerleading Squad

This year's Wrestling Cheerleaders were Missy Robinson, Christy Wyatt, Captain, Denise Pruitt and Lisa Franklin.

Enthusiasm, school spirit, and team pride are qualities synonymous mainly to one group of athletes - cheerleaders. Cheerleading is necessary for boosting morale and urging teams on to their best performance. Cheerleaders support the teams in not only victory, but also in defeat. For many other athletes, cheerleaders are "life-savers" as they are loyal team advocates and give a feeling that someone backs-up the team even at away games that most fans are not able to attend.

To help strengthen their own enthusiasm, the GHS cheerleaders held

a camp in the Meyer's backyard where the Power Cheerleaders from the University of Hawaii spoke to them. The cheerleaders were also in charge of all the pep assemblies.

This year's cheerleaders sometimes had problems, but two squads in particular were able to overcome these and were commended not only by the fans, but by their teams. These two were the Wrestling Cheerleaders, under the guidance of Christy Wyatt, and the Junior Varsity Squad with Connie Weber as Captain.

'The Roaring Wheatchix'

"Where did you ever get the name 'The Roarin-Wheatchix'?", is a question that is most frequently asked by the members of the audiences of the Goddard Drill Team. The word "Roarin" comes from the Goddard mascot, the lion, and "Wheatchix" from the fact that the members are from Kansas, a prominent wheat producing state, and the fact that they are all definitely "chix."

The Wheatchix started practice the first week of July, before most students even started thinking about school. By the first day of school, the hardworking team had three drills up to performance level. Their first official appearance was at the Hamburger Feed. The Wheatchix also had a few outside performances besides home football and basketball games. They marched in the Fall Festival parade, performed at Union National Bank's grand opening, Hutchinson Community College, and Butler County Community College.

The highlight of the year for the wheatchix was their trip to Olathe North High School for the Miss Kansas Drill Team and Pom Pon festival. The team performed three

Band Grows To Over 70 Members

Freshmen Join in the Fun

The GHS Band, welcoming the freshmen band into it, grew to over 70 members this year. The band was a young group with over half of it freshmen and sophomores, but they all worked hard and showed that they were proud to be with the Goddard Lion's Band.

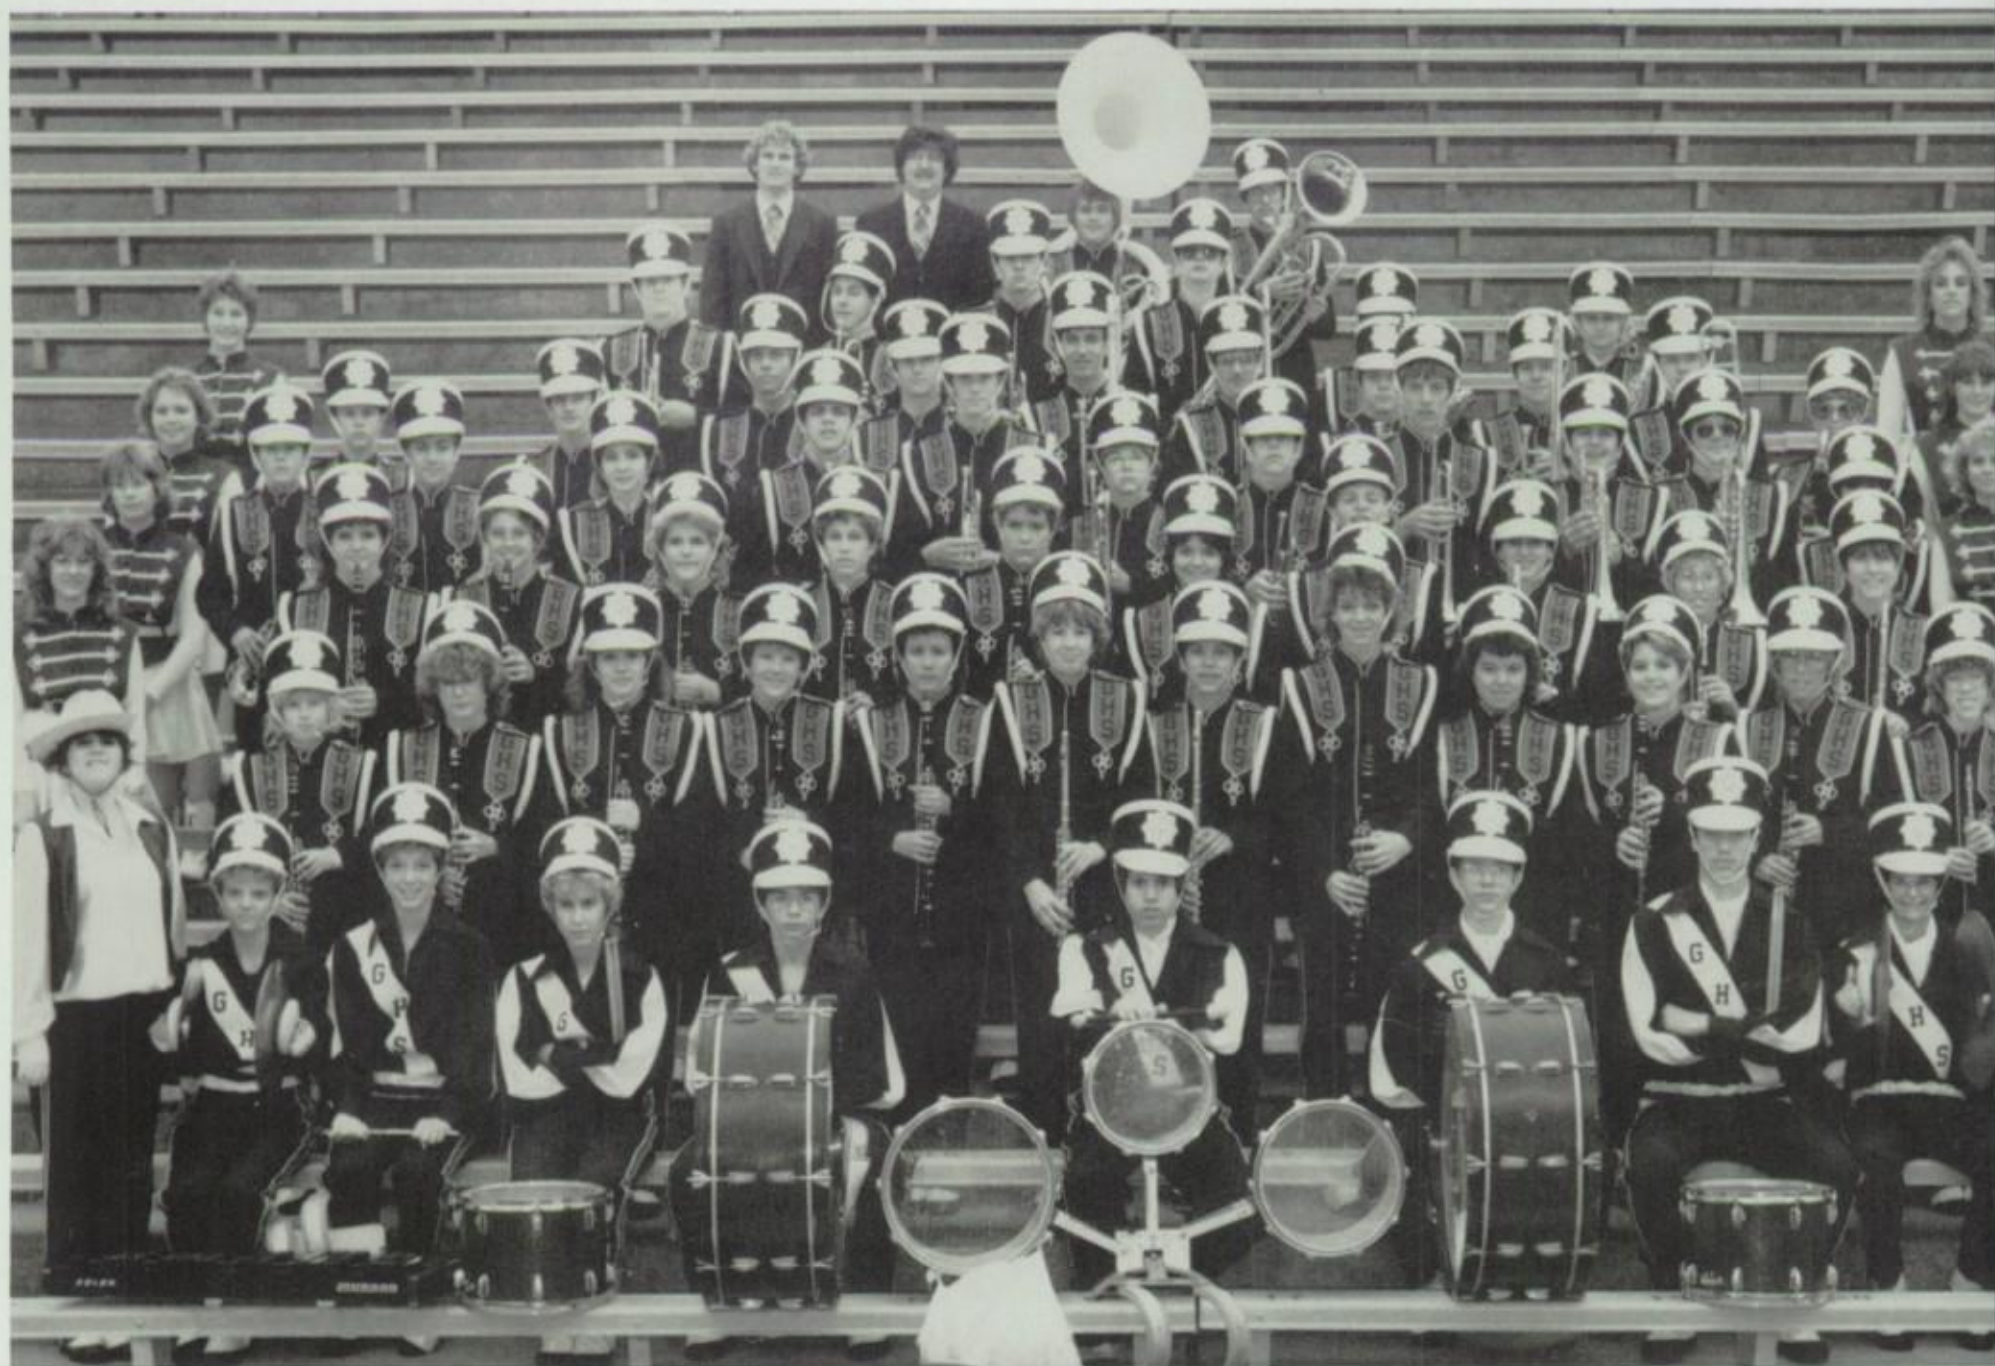

It was a busy year for the band and took a lot of time and hard work on everybody's part. They started their season performing at all the home football games bringing spirit to them. Next, it was on to Wichita State University for "Contest Band Day" where they received a "3" rating, but were able to raise it to a "2" rating at Ark City

in the Arkalalah Band Festival, where they performed and marched in a parade for judges. Then it was time to put up the marching shoes and start in with concert band and pep band in which they performed at all the home basketball games.

When the year came to a close and they looked back at the year past, it had been a long one and a lot of hard work had been put into it. There had been good times and bad, but there were lots of memories made. This proud group shared in all that it did.

The tradition didn't stop with this year's band. Although a small group, they really kept the beat and showed their talent by performing different types of music such as jazz, swing, rock, and ballads.

Forensics

The New Generation Goes To State.

Forensics is a competitive activity involving students in both public speaking and acting. Forensic events include extemporaneous speaking, original oratory, informative speech, prose and poetry interpretation, solo acting, duet acting, and improvised duet acting. This year students also participated in Student Congress and Lincoln-Douglas debate. Of the thirty-one students, Kari Bunn, Carl Bradt, Michelle Dyson, Matt Langston, Dawn Lidgett, Susan Schultz, Cyndi Troy, Kim Williams, Renee Wiebe, and Missy Smith were Gold Medalists at the State Festival. Also Tom Greer and Richard Oatman placed third at state in a duet act, and nine students brought ten gold medals home from the State Speech and Drama Festival. With the experience of the new generation of students, the next few years are sure to be good ones.

Enthusiasm! It's contagious!

The debate team shows off all of their prize trophies which they won this year.

This year the debating team has been the most successful in Goddard history. It has come about from the dedication and determination of the students. They won two first place sweepstakes trophies and at least ten other trophies. The two sweepstakes trophies were won from the Campus Novice tournament, and the El Dorado Championships. Two first place trophies were won by Tom Greer and Roy Hammar, one at the Campus Nov-

ice tournament and the other at the McPherson Novice tournament. Two second place trophies were won, also. One was won by Kathy Downey and Debra Edgington, at the Wellington tournament. Another at the El Dorado tournament was won by Ryan Hodge and Philip Michelbach. There were six third place trophies won by many different students, all of which were at different tournaments. Ryan Hodge and Philip Michelbach won

at the Manhattan tournament, Debra Edgington and Kathy Downey won at the Valley Center tournament, and Todd Luckman and Richard Oatman won at the Chisholm Trail League tournament. Cyndi Troy and Becky Pickens won at the Haven tournament, also at the McPherson tournament. In the El Dorado tournament, Kathy Downey and Debra Edgington won a third place trophy.

Whether it was going to debate tournaments on Saturdays or staying after school to prepare, they were always willing to strive for excellence. Mrs. Fellers, or Coachie as she's known to the debaters, is always willing to help them and stay after school trying to better their education. The accumulation of trophies stacked up in Mrs. Feller's room shows how hard they have worked and tried.

Spanish Students Win Contest

President Michelbach takes a Second Term

Spanish Club sponsored a trip to the foreign language contest at Kansas Wesleyan University in Salina. Several club members participated in the contest by giving poetry recitations. Connie Weber placed Second in the Spanish I competition and Raylene Hodge took First Place in the Spanish II competition with Mike Osterman following with a close Second. The GHS competitors had the best over-all scores out of the twenty-two schools that took part. A weiner roast at Watson Park was planned later in the year to celebrate Spring.

Mrs. Milligan and members of the French Club have a busy but fun-filled year. In December the club succumbed to tradition by Christmas carolling in French. A Mardi Gras Party was held later in the year with a costume contest. The party-goers with the best costumes won a French sweat-shirt. A foreign language competition at Kansas Wesleyan University in Salina involved several club members reciting poetry. The last big event of the 84-85 school year for French Club was the viewing of the French play *LA CANTATRICE CHAUVE* performed by the Alliance Francois de Wichita. After the play, the group ate dinner at the Café Chantilly.

Kays Have A Busy Year!

Kays and Spirit Club combine during Spirit Week.

The 1984-1985 Kays sponsored many events this year. As in the past, they put up all the Fall and Winter Homecoming decorations. With the aid of donut sales, Kays raised enough money for decorations and D.J.'s. They thought up the theme, and picked out the song. With the help of Spirit Club, they set up Spirit Week. On Valentine's Day, they sold white, pink, and red carnations. The Kays officers were-President-Dione Byars, Vice-President-Melody Haller, and Secretary/Treasurer-Deborah Beyrle. There were also five committee chairmen-Janet Davis, Sandy Payne, Missy Smith, Connie Taylor, and Kami Travillion. Overall, the Kays have had one of their best year's ever.

The 1984-1985 members of Quill and Scroll have worked very hard for this honor. This year the largest number of juniors were invited into Quill and Scroll. A Quill and Scroll member must be recommended by their English teacher and be in the top third of their class. Once a member of Quill and Scroll, the person will get a year subscription of Quill and Scroll magazine, a Quill and Scroll pin and an invitation to the National Honor Society Banquet. Working on the Prism magazine this year there were thirteen students. It was sponsored by Mrs. Criss. Prism magazine, had patrons this year, for the first time ever. The Prism officers were Angie Weber, Deborah Beyrle, Sandy Lancaster, Janet Davis and Kathy Downey. They read through all of the entries for Prism. Then they decide which page everything goes on. When this is finished, the layout editor, Clay Bourbonnais, makes the layout for every page. Everything is then sent to the printer. When the magazine is finished, it is sold to the students at Goddard High. With the largest number of first year members of Quill and Scroll, and the increasing interest in Prism, the future for the two looks very promising.

The Magic Of Music At Goddard

is The Students That Make It

Directed by Jack Rennie, the choir performs as many as four shows a year, including the tremendously popular spring show "Showtime."

"It's a nice break in the day, and a super way to learn something as intricate as music in a relaxed, easy manner," says Karen Hight, a singer in the soprano section. Choir is a unique experience that blends people together, just as tones that harmonize to form that perfect lasting note.

The pianists are: Mary Shinogle, who plays for Madrigals, and Melody Haller, who plays for the Choir.

Mr. Rennie directs one of the outstanding performances of the Choir.

Choir Members; left to right, first row: Teresa Unruh, Becky Pickens, Shawny Jaeckel, Cindy Troy, Anne Page, Michelle McCool, Natalie Hedden, Cammie Whitworth, and Julie Reiswig; Second row: Alicia Hannah, Karen Hight, Vonda Norris, Michelle Dyson, Susan Sims, Carl Bradt, Mike Page, Mike Francis, Tim McCool, Becky Lillibridge, Leslie Elmore, Deanna Hall, and Jenny Frisch; third row: Jenni Fockler, Heather Emry, Patti Brockman, Ruanne Olmstead, David Shuman, John Fox, Gaylan Smith, Kevin Landwehr, Jeff Thimesch, William Gibbs, Tarina Kohlhorst, Kari Bunn, Kim Kardatzke, and Amy Elder.

Madrigals Are A Choice Group

Madrigal Members; first row: Sandi Lancaster, Gaylan Smith, Cammie Whitworth, Mike Page, Amy Elder, David Shuman, Tricia Walton, Steve Stucky, Jenni Fockler, and William Gibbs; second row: Teresa Unruh, John Fox, Karen Hight, Kevin Landwehr, Connie Taylor, Mike Francis, Becky Pickens, Carl Bradt, Kim Kardatzke, Tim McCool, and Mary Shinogle.

Mr. Rennie, the director of both choir and Madrigals, spends many hours in practice with these groups to make them the best singers possible.

The singing Madrigals uphold an excellent reputation because they are a choice group of young singers willing to display a talent all their own.

The boys dressed in tuxs, and girls dressed alike, the Madrigal singers look just as good as they sound. They perform at all the shows and at many outside activities. At the Regional Music contest, they received a I rating, and at State, they received a II.

"Madrigals is a lot of hard work but it pays off in the end."

Science Club

Getting Involved

Under Mr. Schartz's supervision, the 1984-85 twenty-eight member strong Science Club had a busy year with educational trips. Throughout the year the group took trips to the Hutchinson Cosmospere, Lake Afton Observatory, Kingman Lake, had a picnic at Lake Afton, and went on a fossil hunt in Western Kansas which included stops at Hayes Museum, Wild Cat Canyon, Castle Rock, Quivera National Wildlife Reserve, and Mr. Schartz's parents' home to study their gem and mineral collection. Science Club also had a puzzle contest and members attended Science Day at Kansas Newman College and Open House at Kansas State University. They also participated in a frisbee throwing contest at Lake Afton.

NHS Members are Leaders

Their Knowledge is Taking Them Far.

National Honor Society is an organization governed by a national charter. Each member is required to have a high grade point average for at least two consecutive semesters and to be involved in various school and community organiza-

tions.

1984-1985 NHS began the year with an officer induction ceremony. Throughout the proceeding year, the group has visited the District Court where a murder trial was viewed. They also toured the South Western Bell Computer Center. NHS ended the year by continuing its tradition of hosting the Honors Banquet in May.

Every year brings many alternatives for one's growth in knowledge, and NHS looks forward to the 1985-1986 schoolyear and its new choices.

Student Government The Decision Makers

Student Council is an organization of students making decisions to improve the school. It gives students a chance to alter or add to high school conditions. Members of the Council represent the whole student body in making these decisions.

STUCO holds several important responsibilities that affect all GHS students at some time or other. Each year senior members are in charge of selecting graduation announcements and preparing the commencement ceremonies; junior

Stuco holds responsibilities that affect all GHS students.

representatives are the back bone of the junior/senior Prom; sophomore members promote sales and organize the ordering of class rings. This year STUCO also sold doughnuts and baked goods to raise money for prom expenses.

Without Student Council, some of GHS's richest traditions would not reflect the student's choice.

Squid Flies High

Qualifies for Nationals

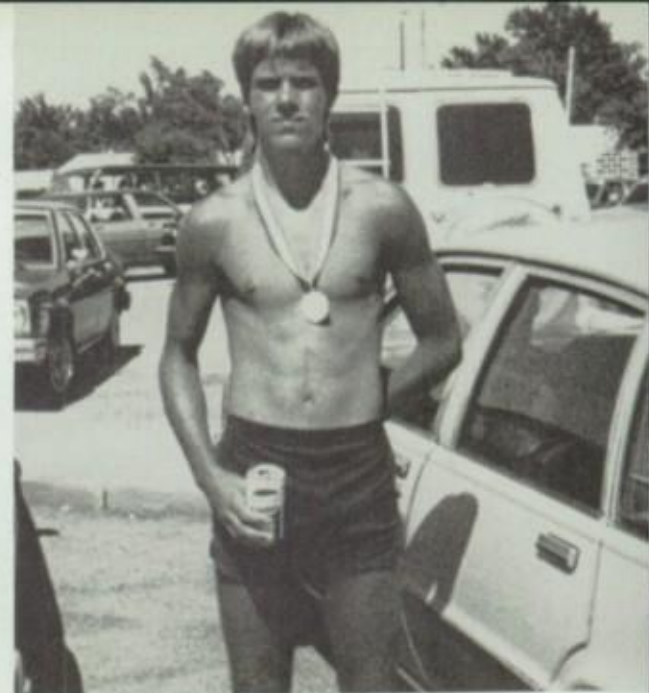

Mike "Squid" German's specialty is the pole vault. Mike's interest grew in the fourth grade while watching the high school track team practice. Mike decided to try his hand at vaulting so he got an old crossbar and began jumping over fences, clothes lines, hedges, and anything else he could find.

Mike got his first real chance at pole vaulting when he entered the seventh grade for the Goddard Jr. High track team. Mike had a very good Jr. High career and has kept it up throughout high school.

Mike's summers are very busy, competing in the Junior Olympics program and in track camps. Mike won the regional held at Derby with first place, and this qualified him for Sub-state meet held in Salina. Mike also won the Sub-state meet. The State meet was held in Junction City where Mike again won with a vault of 13 ft. 6 in.

By placing first at Junction City Mike qualified for the Missouri Valley Association meet. Mike placed fourth in the meet and qualified for the Region VIII meet which qualified him for the Nationals held in Jacksonville, Florida. Mike placed seventh at Nationals in Jacksonville.

Mike's senior year in track was a very successful one. Mike was the CTL League Champion setting a new league record at 14 ft. 7 in. Mike also was the Regional Champion and placed third in the State 5A meet.

"Going to Nationals was a great experience for me."

Mike German

Vaulting all summer in Jr. Olympics, and going to the National meet in Florida helped Mike a lot his senior year in track.

Lions Are CTL Co-Champs Winning respect

Dan Bachelor and Larry Jones team up for an extra point attempt.

The 1984-85 Lions went 6-3 this season under third year Head Coach Farrel Jones. The Lions started off the year a little slow with a 0-35 loss to Wichita Northwest. The Lions showed that they weren't losers in their next two games they defeated Augusta 14-8. Then faced a very tough Wellington team and won 33-13. Then the Lions lost their first league game to Mulvane since 1969, 21-6.

The Lions showed that they weren't losers

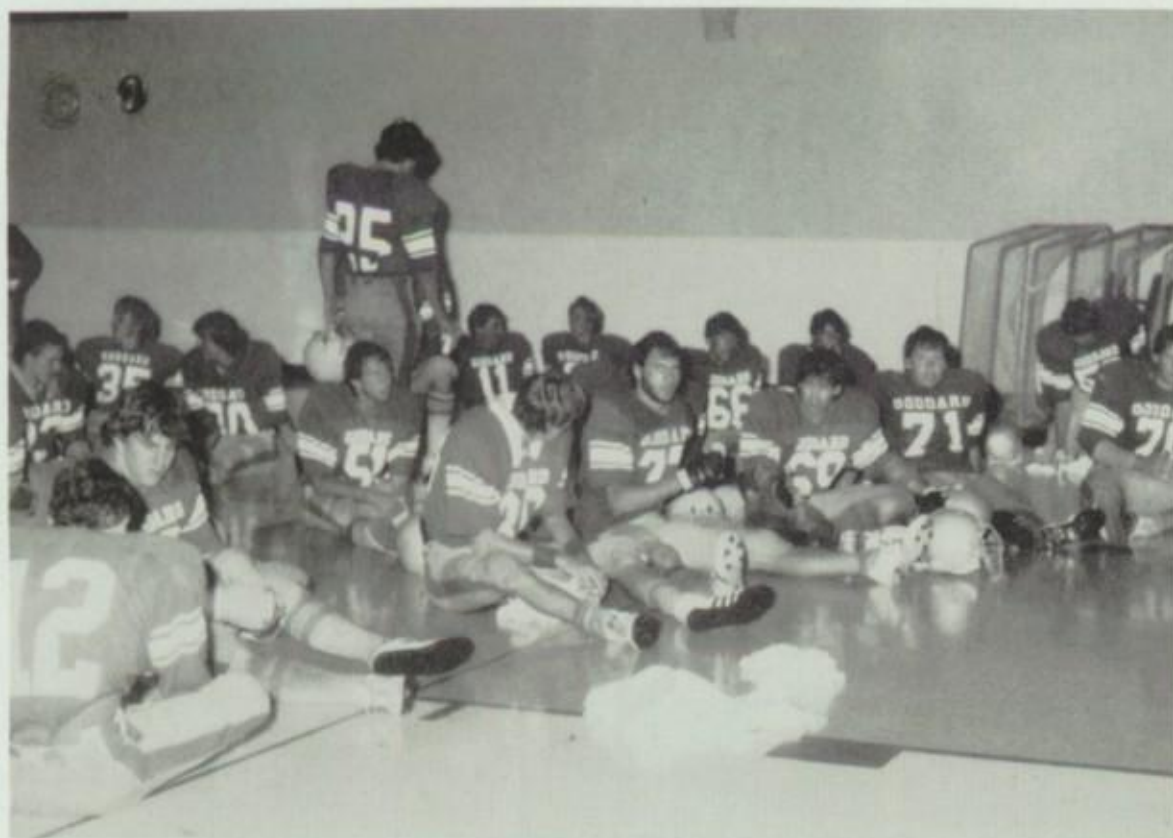

In their fifth week they were at what the coaches called a crossroads and pulled out a squeaker against Great Bend 7-6. Then on a rainy Homecoming night things looked grim for the Lions at half time but exploded in the second half to defeat Valley Center 22-8.

The next week District play started and the Lions faced a very highly regarded Bishop Carroll football team and lost 14-7, but the coaches felt that time just ran out. They faced Liberal the next week and won 10-7 on a field goal

by Dan Bachelor with six seconds left. The Lions were up against Buhler in their final game and were playing for a League championship when they turned around a

slow start with an impressive victory 35-0. The Lions finished second in District play and were ranked in the top ten in class 5A at the end of the season.

A Successful Season

J.V. Goes 5-1

The Junior Varsity had a very successful season under Head Coach Steve Mies who was aided by Coach Don Hawk and Rookie Coach Tom Audley. The Lions were 5-1 with their only loss to Wichita Northwest 14-18. Then the lions won 5 straight including 5 shut-outs. They out scored their opponents 123 to 52 in the 6 game season.

The lions were few in numbers but made that up with heart, determination, and hustling. The J.V. squad received a lot of valuable experience this season that they will need to continue the tradition of all Goddard High School Football.

"My first year at GHS was a new and exciting experience. I really enjoyed playing football."

Cross Country

Meeting the challenge

The strain of stretching muscle, sharp pains cutting through regions of the stomach, breath coming in little more than gasps, the wind ruffling through one's hair, the salty taste of sweat on the lips, and still, pushing on to that one immediate goal: the finish line. What makes these people do this every day for nearly six months? The tortures withstood by a Cross Country runner may not be understood by those not involved in the sport. But even to those who are, the reasons are not entirely clear. Perhaps the challenge of Cross Country attracts some, while others are entrapped with the desire for applying self-discipline.

The 1984-85 Goddard Cross Country Team may never be noted for its great athletic achievements, but each team member set and struggled for personal goals. Achievement is not always measured in 'wins and losses,' but more often in individual growth.

Brad Robinson pushes ahead of Jeff Howell in a difficult run.

Steve Stucky crashes out on the mats on the bus on the way back from the Wellington Meet.

In the process, each learned discipline and how to get along with oneself and others. Bowden is an outstanding coach of impeccable talent and knowledge, and he has initiated some of the fondest, as well as some of the most terrible memories in Cross Country runners lives, but always some of the most significant. On behalf of the 84-85 Cross Country Team, we thank you, Coach Bowden.

Taking It To State Another successful year

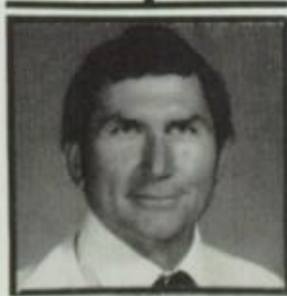

This year's 1984-85 Girls Volleyball team was the best group of girls to come together and form a team. They were the best hitters and best blockers to be a team at Goddard High School. They had lots of confidence in themselves and it showed when they were on the floor. Of course there were times when they were down and out, but once someone hit a real good spike, the team picked back up.

The Varsity Volleyball team participated in three tournaments, Valley Center and the two Goddard

Invitationals. They finished 2nd at Valley Center, losing only to Ellsworth in the finals, and finished 1st and 3rd in the Goddard tourneys.

This year's team finished with the 2nd best record in the history of Goddard High School. They advanced to the 5-A State Volleyball tournament by winning Sub-State for the 6th straight year. Throughout the season the team did very well, finishing with a 30-9 record.

Theresa Girrens, Christa Gaylord, and Tammy Wyant were all-league choices and Stacie Wiechman received Honorable Mention.

I feel the team, lead by a strong group of seniors, reached one of their main goals this year by going to the State Tournament. Head Coach Paul LaBrue

The 1984-85 J.V. Volleyball team had a very impressive season as well. The team was a little shaky at first, but as the season progressed, so did the team. They made tremendous strides in their hitting and setting abilities. And by the end of the season, they really began to work together.

This team also made some great advancements in the area of experience through competition. The first J.V. tournament, which was held at Friends University, taught them a lot. The lady lions did not fair well in score, but received valuable experience that helped them come together by season's end.

These players fought hard and gained a tremendous amount of experience this year. That experience and determination will play an important role in the development of the next Goddard Varsity Volleyball Team.

Young Wrestlers Work Toward the Future

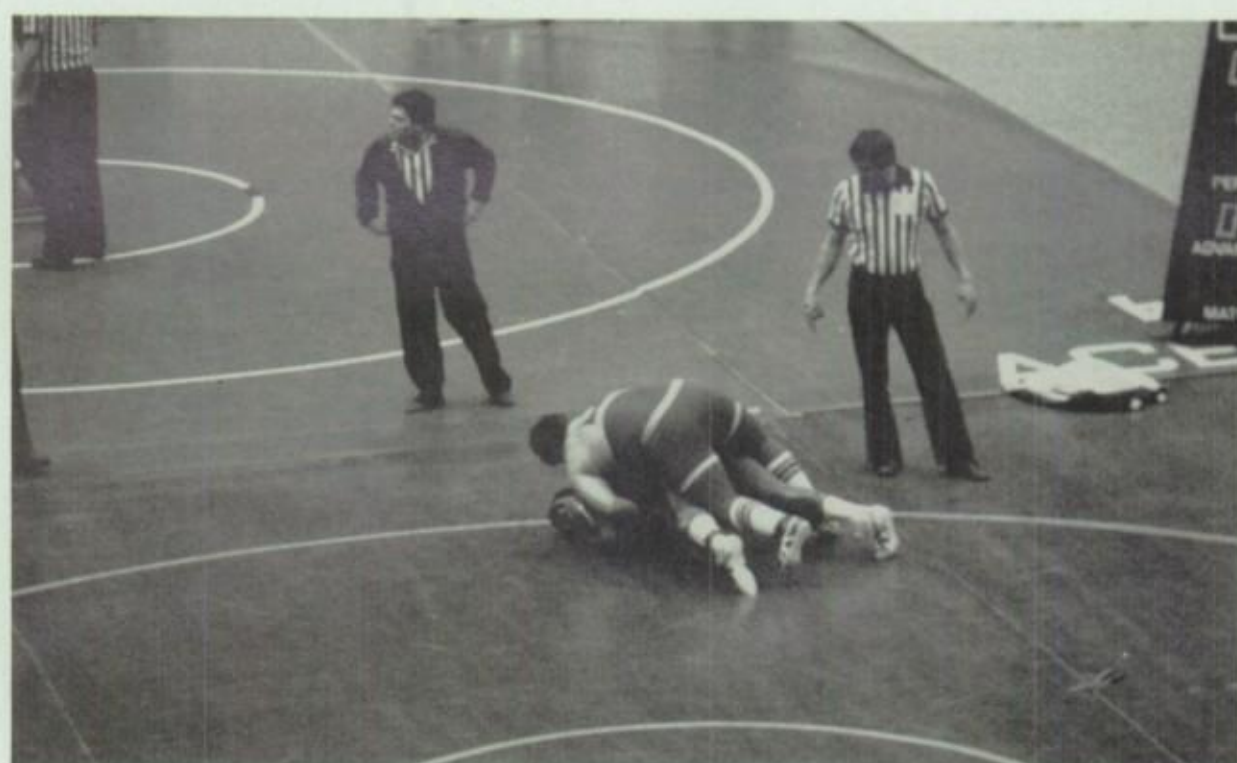

Freshman Jimmy Hartig battles to stay ahead in a varsity match.

The Junior Varsity wrestling team had a very successful season this year. They competed in tournaments at Wellington, Augusta, and Wichita Southeast. They had many fine wrestlers who brought home a lot of individual medals. The wrestlers gained much needed experience that will prepare them for varsity competition in the years to come.

The Varsity Wrestling team really appreciates the J.V. Wrestlers for their hard work in practice. The J.V. does their best to prepare the Varsity for duals and tournaments.

Three Place In The Top Four.

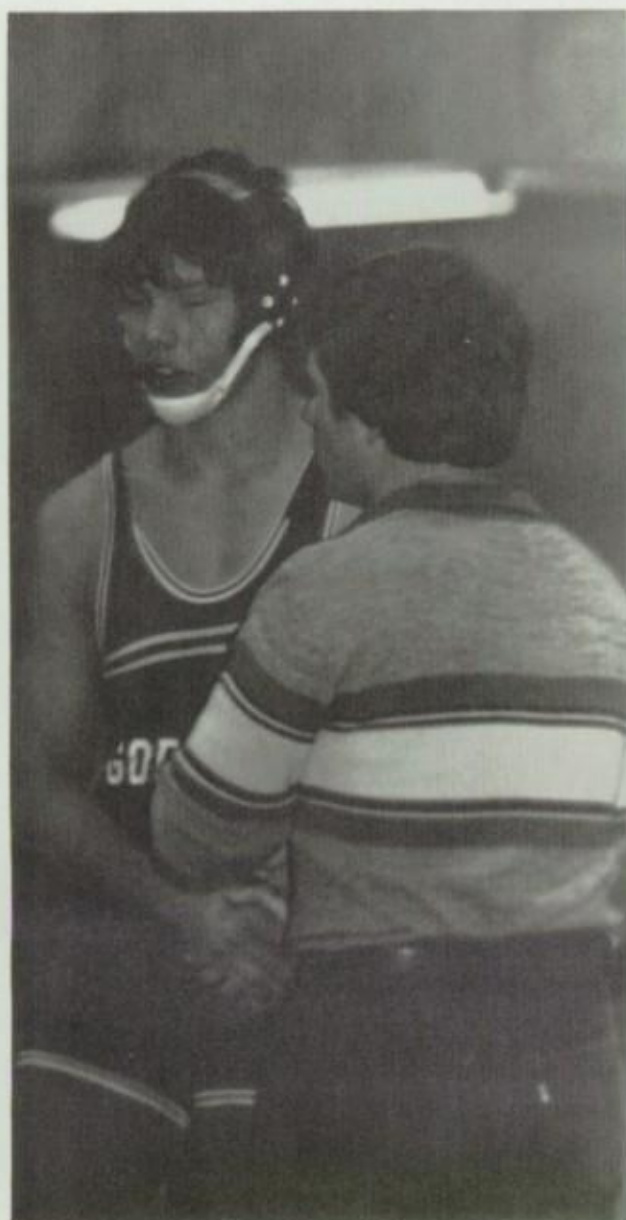

The 1984-85 Wrestling season was the "most successful" season Goddard has had under Head Coach Dan Gingraux. The Lions compiled a seven wins, three loss, and 1 tie deal record.

The winning ways continued into the tournaments and post season tournaments. The Lion wrestlers brought home eleven individual gold medals and 12 silvers throughout the year.

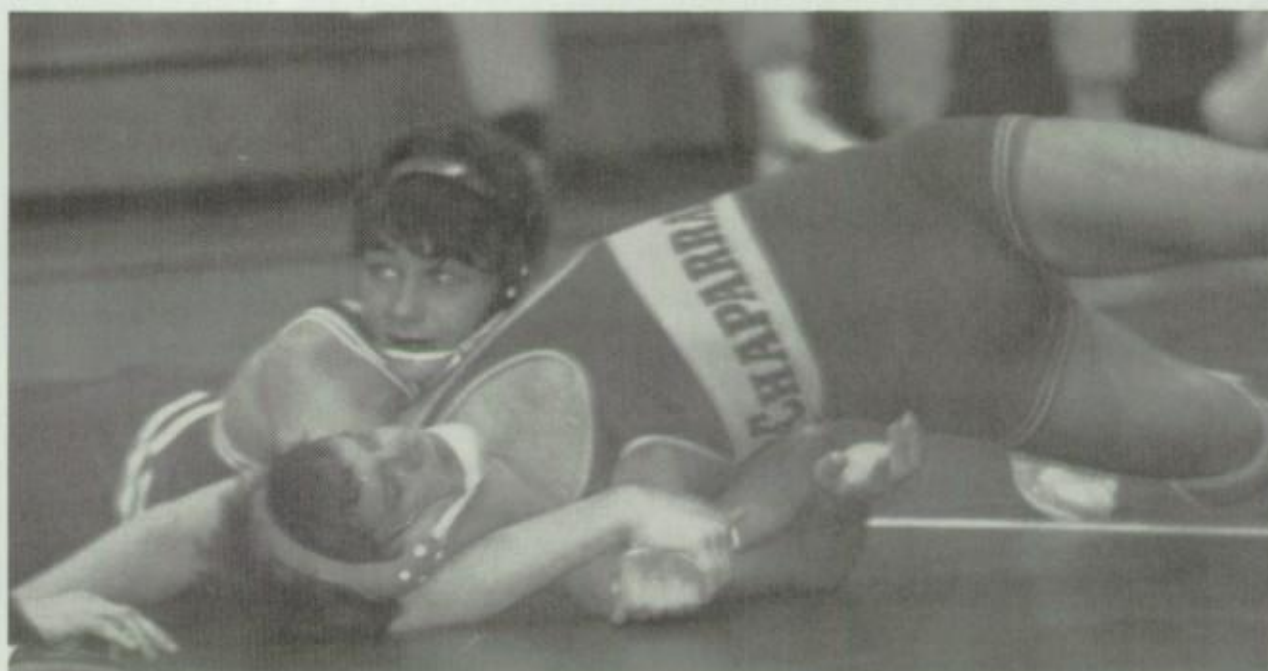

The Lions placed 5 people in the top four at Regionals, that sent them roll-

ing into state. At state, Sam Parduhn and Mickey Danahy placed second, along with Clay Bourbonnais third place finish. This placed the Lions seventh as a team, which is the best they have shown for years.

The wrestlers had a fantastic crowd at all the matches this year. They had loyal fans show up at all of the away matches to cheer the wrestlers on to victory. They also had great support from their number one fan, Darlene Criss.

The 1984-85 Girls Varsity Basketball

Striving to be Better than the Rest.

A season which began with high expectations faltered because of the lack of number of girls whom came out for basketball this year. Coach Don Stucky said, "Being a young, inexperienced team with only two seniors, we had our ups and downs and thus lacked the consistency necessary to win the close games."

The team this year was comparatively small with only ten girls. The point about only having ten girls was that the younger girls gained valuable experience playing Junior Varsity and Varsity too. They have got a lot to look forward to next year because they have now gained a lot of experience needed for a successful season next year.

When a time-out was called, Mr. Shadwick went over some plays during the blue-white scrimmage.

Last year as sophomores, the boys' basketball team had a record of 12-4, this year as juniors, they kept the chemistry flowing with a record of 9-5. The JV coach was Mr. Monte Shadwick, a communications teacher at the junior high, who helped them to achieve this record. At the beginning of the season, the team started out with 9 players, but ended with 6 because of illness and injuries. Coached by newcomer, Jim Foltz, a math teacher at Goddard High, this year's sophomore team had a record of 4-12. The combination of these two will come together to form excellent JV and Varsity teams next year.

Steve Dixon and Danny Doonan guard players during one of the sophomore games.

JV Girls Basketball Shows Determination They Show Their Stuff.

Heather Armbrister goes for a lay-up in a game against Augusta.

Coaches Don Stucky and Jeanne Suellentrop, both teachers at Goddard High, help lead the JV girls to a 6-8 record this year. With the help of juniors, Sandy Payne, Stacie Wiechman, Susan Ludvicek and Tonya Williams, the JV had a fairly good year. Because there were only 5 total players throughout the year, the junior girls helped the sophomores play in some excellent games. At the rate the girls are improving, the basketball teams coming up are sure to be good ones.

Varsity Shows Determination

They Fought Hard Until the End.

Scott Harris, senior, prepares to shoot for two.

This year's basketball team lacked some of the things needed for a successful season in terms of wins and losses. They did not have a lot of varsity experience returning from the previous year. They lacked height and consistent shooting also. On top of that the players had to adjust to a new coach and a new system. Those critical areas had a lot to

do with a 2-19 season. What the team did not lack was heart and spirit. This

was very evident in the sub-state contest against heavily favored Bishop Carroll. The team could have folded and "put in their time," but instead they played extremely hard and tough and almost pulled off a major upset.

The character of this team is something the school should be proud of.

Tracksters Go the Extra Mile

Individuals Reap Honors

The year started out hard because Mr. Bowden was away at the Legislature, but the team worked hard and soon got into the swing of things.

Six people qualified for state: Theresa Girrens (100 high hurdles, 300 intermediate hurdles), Steph-

anie Neth (100 meter dash), Lisa McVey (400 meter run), Tammy Wyant (high jump), Mike Renner (100 meter dash) and Mike German (pole vault).

Three of those six placed in state. Another record was broken by Stacie Wiechman when she threw the javelin 113' 6". While she broke the school and the league record, she did not qualify for state because that event is not held at the state meet. Mike German broke the school record for pole vault at 14'7" and the League record at 14'4".

Track is a sport in which an individual effort pays off for the team, and the only sport in which boys and girls work together. The coaches and the team agree that this year was highly successful.

Young Golfers Work Hard

Lechner goes to State.

Drive that ball. Jarrod Goentzel takes a good swipe at the ball.

The Goddard Lion Golf Team had a fine year. The team finished fourth at a very tough Chisolm Trail League Tournament.

Despite all of the youth and inexperience, the blowing winds, bitter cold, and heavy rain, the golfing Lions put forth their best effort in practice and at all the tournaments. The team had only one senior competing, but he provided the leadership needed for a successful team. Steve Lechner led the team to their fourth place league finish with his second place finish, just one stroke off the lead. He placed fourth at the regional tournament which sent him on his way to state.

The future for the Golf team looks very bright. They had five juniors, and one sophomore who should all have fine seasons in the future.

Baseball Team Keeps Pitching

Toughest Season in Years

Larry Jones intently waits for the signal.

Scott Harris thinks carefully about the next pitch.

With only five seniors and one junior returning, the Goddard baseball team had a rough year. The youthfulness of the sophomores and freshmen limited the team's abilities, but the team worked hard and diligently.

Drawing the year to a close, the Lions won two games in the Walter Johnson League Tournament and kept Wichita East to only a two point win. The team finished the year with a 4-14-1 record.

Having so few upper-classmen playing gave the younger team members the much needed experience that they would not have received otherwise, preparing them for a more fulfilling 1986 season.

Lions Capture First CTL Title

It came down to the final day of the tennis season, the League meet. We were favored for the team title and were ready for the challenge. Our #1 doubles team of Ron Canupp and Roberto Pecoits were seeded first, while Lance Lechner, the #1 singles player, was seeded second. Everyone won their first two matches which put everyone into the finals. Both the #1 doubles team and the #2 doubles team of Rick Scheer and Jeff Howell finished first, while Lance Lechner and Steve Stucky, the #1 and #2 singles finished second. Congratulations, Lions, on your first CTL League Championship!

Lions Lead the Way

Champion. The word leaves a lasting impression on those who hear it. But it is much more than a word, it is a way of life. A striving for excellence that all athletes reach for. These athletes have chosen this road. But this road is not an easy one. Sacrifices must be made to achieve athletic excellence. Many will fall short. But those that have paid the price with pain and sweat have succeeded, for they knew that one day it would all pay off. We pay tribute to these athletes ... not only for their success, but to the spirit that drives them.

Each year two athletes are chosen by the coaching staff at GHS to receive the most outstanding athlete award. These athletes represent the finest athlete — both in ability

and in character - that Goddard has to offer. This year's recipients are Theresa Girrens and Mickey Danahy.

Arbuckle Dances Her Way to the Top

Janet Arbuckle has been dancing since she was six years old. She is still dancing her way into the hearts of Kansans as she dances the lead role of "Peter Pan" through the summer months.

She was honored by being one of only a few selected to dance in the Christmas favorite, "Nutcracker Suite" and went on tour through Kansas helping to carry on the beloved tradition.

Janet is a delightful person, never trying to be something that she isn't. She radiates her feelings through her dancing. She wants to bring herself to dance in more than just the modern ways. A deeply religious person, she wants to bring the spiritual side of dancing so that others can appreciate that beauty.

She has received a scholarship in dance at Wichita State University and will be working on a double major so that she can dance, and bring dancing to others in the future.

Ah, yes, Spirit Week once again, and Kay's Week — the student's and faculty's favorite two weeks out of the year. These two weeks give everyone a chance to hang loose and let everyone find each other's true personalities. This year the days were Nerd Day, Blue and White Day, Do Your Own Thing Day, and Dress Up Day. During Kay's Week was the all popular Slave Day.

This year Nerd Day was one of the most popular days. Students came in wearing horn rimmed

glasses with tape in the middle and high water pants, along with gaudy colored shirts, and shoes that showed how much imagination the students had.

Slave Day was the day of revenge. The slaves are auctioned off and anyone can buy a slave. The buyers of the slaves have them do many various things such as: read poems, sing out loud during lunch, dress up as the opposite sex, and many more clever ideas.

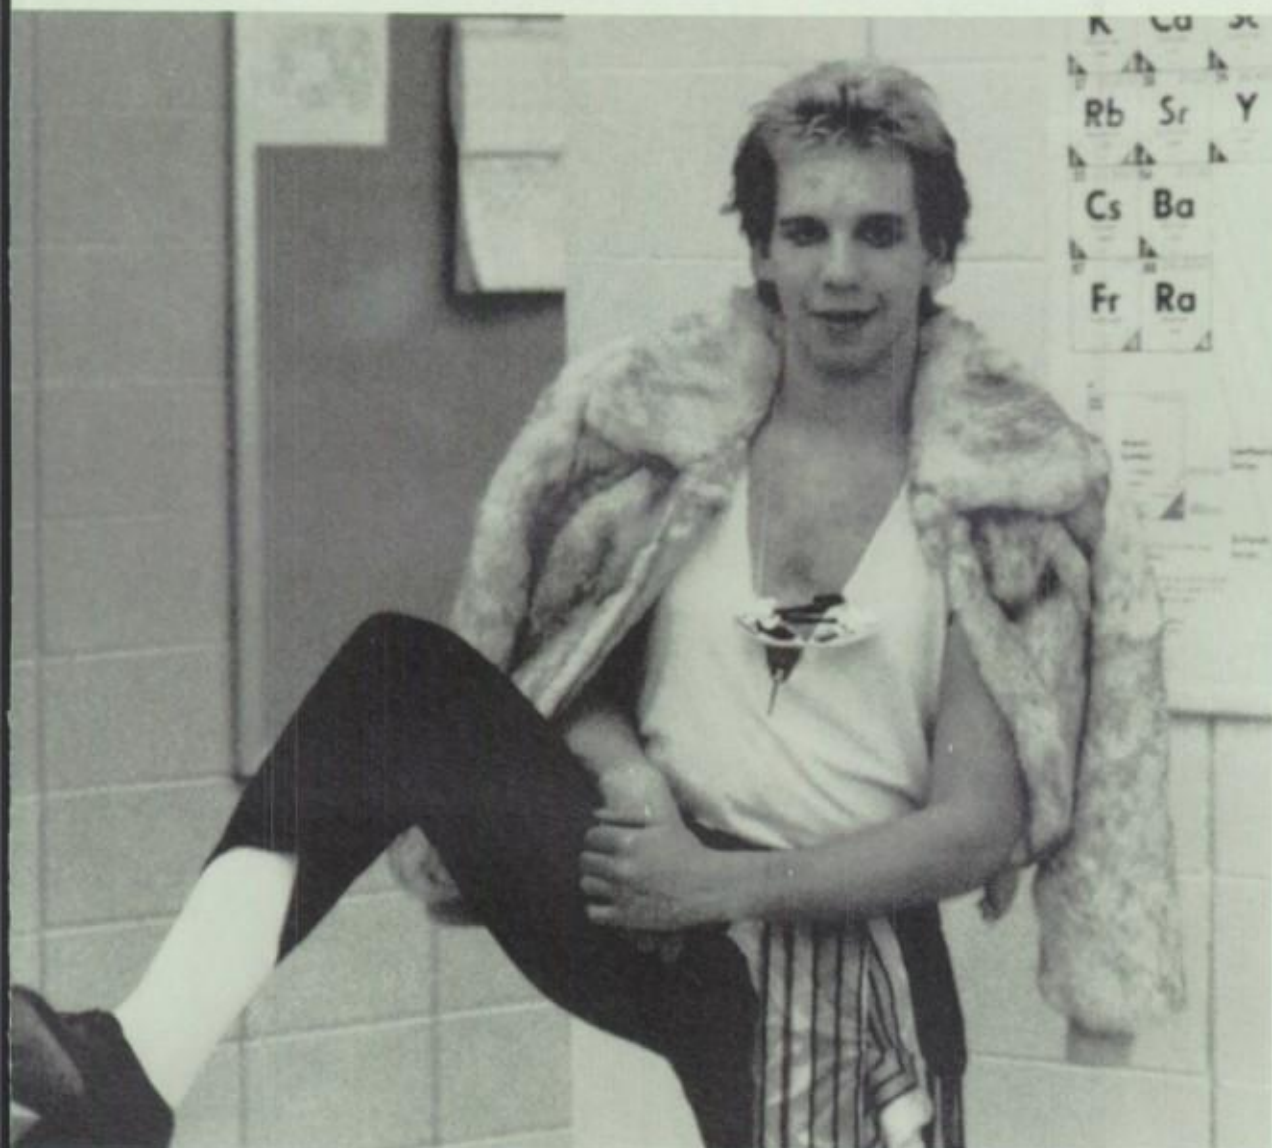

This year was the best two weeks of school support and spirit.

Fall Homecoming

A Hard Habit To Break

This year's homecoming ceremonies were rained out and were executed after the game instead of before. The ceremonies began at 11:00 p.m., because of circumstances beyond our control. After 2 years of being sophomore and junior attendants, Dennis Stoots and Diana Edmonds were crowned King and Queen. The senior attendants were Lorne Autry and Debora Hanna, also Rod Ehrlich and Tina Nunnelley. The junior attendants were Tony Martinez and Kim Kardatzke, and the sophomore attendants were Joe Delamore and Connie Weber. The homecoming theme was the song, "Hard Habit to Break." The song, which was from Chicago, was sung by Steve Stucky and Tricia Walton, both seniors, and accompanying on the piano was junior Mary Shinogle. The dance, which followed the ceremonies, was DJ'ed by ESCAPE.

With dripping wet hair and soaking wet outfits, the cheerleaders, the few fans in the stands, and the team, afraid of having to cancel the game, played in the mud and pouring down rain to a homecoming victory. The game was played against Valley Center and we won 21-8. This victory helped the Lions' stay in the running for the Chisholm Trail League Championships. They were behind 8-6 after the third quarter, but came back to score two touchdowns in the final quarter, making the score 21-8.

Pep Assemblies Give Break Sometimes Less Than Peppy

The tradition continues as every other Friday during football and basketball seasons, the last fifteen minutes of the school day are devoted to boosting the teams and fans for the game later that night. The time is allotted and the students do the rest. Filling the GHS gym during those fifteen minutes led by the cheerleaders is the laughter shared by all viewing those "lucky" enough to be chosen to be the spirit-raisers. The Senior team members pep talks are given by a different senior at each assembly, and the skits are sometimes graced by teachers' involvement.

Ideally, pep assemblies move the whole school into a flurry of excitement that evolves into a zealous resistance to surrender the pride and spirit that the assemblies initiate. Sadly, this doesn't always happen.

The Wild Bunch! These guys always seem to have a good time, especially Jaden Randle.

Mike German gives an uplifting speech at the assembly. Also on hand are Clay Bourbonnais, Tim McCool.

GHS Band Performs In Florida

At 6:00 in the morning on March 31, the GHS BAND left Goddard in route to Orlando, Florida for four fun-filled days in the sun. A lot of time and hard work had gone into this trip and people will always remember the GHS BAND and their products to sell.

The band was gone for a total of six days and performed at Cypress Gardens and Circus World in Florida. They also spent two days at Disney World and Epcott Center in Orlando.

All went well and there were many very special memories made. The band had a great time and became closer in the six days that they were together. They returned on April 6th at 2:30 in the morning.

The senior attendants were Tim McCool and Carmen Armbrister, and Mickey Danahy and Missy Smith. The junior attendants were Tony Putnam and Wendy Johnson, and the sophomore attendants were Roy Hammer and Kathy Allen. The homecoming theme was "All I Need," along with the homecoming song "All I Need," by Jack Wagoner.

The game which was played against Augusta lead Goddard to win its first game of the season. This win brought the league basketball record to 1-2 and to 1-7 overall. It also knocked Augusta to 0-4. The leading scorers of the game were Scott Harris, with 20 points and Tim McCool with 14 points. These two, and the rest of the team helped Goddard to win 61-42.

Showtime A Big Success

Final Concert Enjoyed By All.

Whether it was the choir, stage band, or Madrigals performing, "Showtime" was a huge success.

The program opened with the choir singing several numbers from the highly acclaimed musical "Oliver." Some songs from the Broadway hit "Porgy and Bess" were also sung by the choir. Madrigals sang a Beach Boys medley and "The Telephone Chorus." Among the large variety of songs, there were visits from "Annie" (Natalie Hedden), Snow White (Jenny Fockler), and the Blues Brothers (Mike Page and William Gibbs). A rare addition to the program was a duet made up of the brother and sister team, Mike and Anne Page.

The audience revelled in the abundance of musical talent, and many proclaimed "Showtime" to be a difficult act to follow.

Barefoot in the Park

On November 15, 16 and 17 Goddard Senior High presented BAREFOOT IN THE PARK. Kim Williams, who portrayed Coree Bratter, has been quite active in drama throughout her school year's. Last year she played the part of Petrovna in Anastasia. When Kim was asked if there were any disadvantages in having such an enormous part, she replied, Since there was so much on stage work, the hours were long so it didn't leave much time for homework. The interview ended with the question, Do you plan to stay active in drama at college? Maybe just in the community theater, she said. But she hasn't any specific plans to pursue it as a career.

Dawn Lidgett, a junior, and a newcomer to Goddard High, played the role of Ethel Banks. When she was asked if she found it difficult to play a character who was much older than herself, she replied, jokingly, Yes, especially having to dye my hair. Dawn said that the most important advantage of working on stage was getting the experience. Her overall comments were, I was really pleased with the performance; compliments and applause made it worth it. She felt that Friday night they gave the best performance. Dawn's parting statement was, I had a great time getting to know everyone.

Miss Fredrickson, was the director of this year's play, as well as last year's. When she was asked how she thought the cast performed, she answered, I was very pleased with the terrific comedy timing. She also commented, the characters were very well developed. She also said that she thought that the first night went the best. When she was asked whether she planned on directing any more plays in the future, she said it just depended on the circumstances. But she pointed out, The high school needs to

develop their own drama department. She also added that the play took about a total of eight weeks to organize. The first week was used to read through the play, then the next five weeks were spent on memorization. The last two weeks were for developing characters, timing and working on sets. Miss Fredrickson's concluding statement was, Even though the play took an enormous amount of work, the cast and crew performed very professionally and that was a great reward!

Putting On The Ritz

A Night with Class

The change was phenomenal when the Juniors and Seniors were suddenly transposed into "Ladies and Gentlemen."

"Puttin' on the Ritz" was the theme of the 1984-85 prom and by the looks of the attendants in the formal gala, the Prom was a huge success. The colors were black, white and silver mixed with fashion posters of James Dean among others. The Caprice Ballroom looked spectacular . . . and the band, "One Night Stand" played rock-n-roll all night long. It was a wonderful night for all, at the Goddard Junior/Senior Prom.

Hollywood Here They Come!

"My Fair Lady" Arrives.

To many G.H.S. drama patrons' delight, the musical "My Fair Lady" by Alan J. Lerner and Frederick Lowe was brought to life on the G.H.S. stage. The musical tells the story of a Cockney flower girl who is part of a linguist's experiment to determine whether or not it would be possible to transform an ill-bred peasant into a lady.

Mike Budzowski and Kim Kardatzke led the cast with the roles of Professor Henry Higgins and Eliza Doolittle. William Gibbs, Gaylan Smith, Karen Hight, Tricia Walton, and Michael Francis made up a supportive back bone for the musical. The milling crowd and chorus added a polished completeness to the production. Despite several

small blunders that all productions come across, the cast enacted a touching and sometimes hilarious performance.

Colonel Pickering (William Gibbs) buys a flower from Eliza as Professor Higgins takes notes.

Mrs. Hopkins (Leslie Elmore) breaks the news to Alfred P. Doolittle (Gaylan Smith) that Eliza has left to become a lady.

The Barmaids (Amy Elder and Cindy Troy) converse with each other.

Professor Higgins (Mike Budzowski) tries to get Eliza (Kim Kardatzke) to say her vowels as a "proper" woman should.

Alicia Hannah, Shawny Jaeckel, Cammie Whitworth, and Karen Hight portrayed the characters of Cockney Women in My Fair Lady.

Eliza (Kim Kardatzke) expresses her dreams of becoming a lady.

Mrs. Pearce (Patricia Walton) and the maids (Amy Elder, Cammie Whitworth, Cyndi Troy, Jenni Fockler, and Teresa Unruh) sing their sympathy for Professor Higgins.

The Honors Never Cease!

Fifteen Types of Honors were Given Out.

Dana Meyer receives her National Honor Society award.

Mr. Jon Roe, writer and television commentator, was the guest speaker.

As the banquet began, Kim Williams' welcome invitation started the evening off right. Mr. Kingrey gave the invocation, then dinner was served! The Madrigal Singers provided after-dinner entertainment. When they were finished, the guest speaker, Mr. Jon Roe, from KAKZ, gave an inspirational speech to all the honor students. The awards started off with Mrs. Perkins and her Art awards. Debate and Forensics awards were announced by Mrs. Fellers. Mrs. Criss handed out the Prism and Quill and Scroll awards. Mr. Schartz gave our several Science awards. Next was Mrs. Milligan and Mr. Rennie with the French and Music awards, in that respective order. Then, Mrs. Sanderson handed out the National Honor Society awards. Mr. Plagge handed out the Perfect Attendance and High Honor Roll awards. Mr. Sandall announced the Scholarships. But, last but definitely not least, Mr. Plagge handed to Betty Klaassen the Salutatorian award, and to Debra Edgington the Valedictorian award. Congratulations to all who received these awards.

Mrs. Milligan hands Bridget Young the French award.

Mrs. Sanderson gives a yellow rose to Janet Davis, a two-year National Honor Society student.

Mr. Schartz gives Steve Stucky and Mark Pannell a Science award.

Kim Williams gives her welcome speech to all the students and their families.

Debra Edgington smiles as Mr. Plagge gives her the Valedictorian award.

Mr. Plagge congratulates Betty Klaassen as she receives the Salutatorian award.

Mr. Sandall reads off all the scholarships.

Some proud parents smile as their children receive honor awards.

Mrs. Criss gives Ron Canupp a special photography award.

Foreign Exchange Students

Teach in Addition to Learning

Right: Maria Svenson is enjoying an American tradition, Halloween.
Below: Exchange students Pablo Villvendas from Spain, Katy Clarke from Australia, and Roberto Pecoits from Brazil.

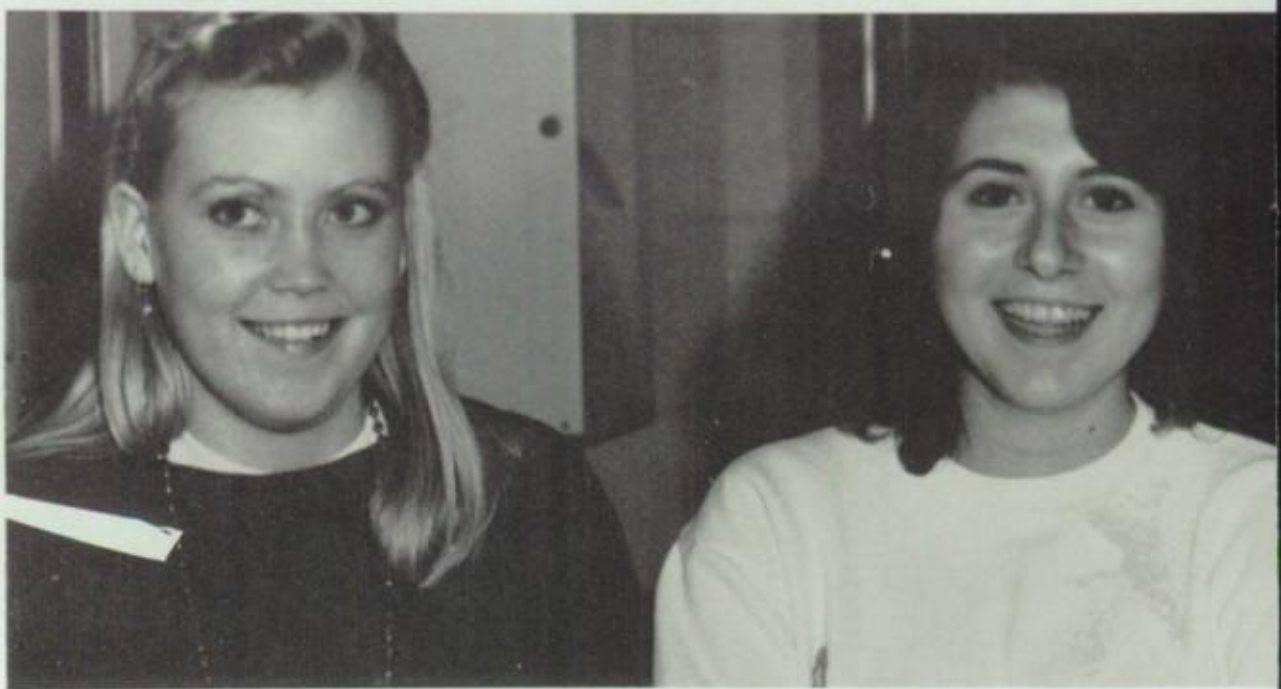

This year Goddard has had 5 exchange students from all around the world. Brazil, Australia, Italy, Spain and Sweden. We have all been socially accepted and the students seem to enjoy having us. They have learned from us about different cultures. We have participated in school activities, such as Sylvia Rovelli participated in volleyball, Maria was on the basketball team, Pablo Villvendas and Roberto both played tennis, and I (Katy Clarke) worked on the yearbook. We have really enjoyed our year at Goddard. Going to a school in Kansas has really been a worthwhile experience that we benefited from and we will never forget.

'I have enjoyed making new friends and playing soccer.'

The New Generation

They're New But They're Good.

Denise Hewitt stops to think it over.

Kim Weems has an eye opening shock when she hears the latest gossip from Brad Robinson.

Accompanying the new pressure awaiting them, the class of 87 discovered high school to be quite easy to adjust to with a little effort and perserverance. The greatly feared title of "Sophomores" no longer held a degrading validity, as the class of 1987 established its place in high school life.

The first few days of high school are always somewhat confusing and remembered with regret. The forced calm that hovers around sophomores on that first day is betrayed after the opening bell rings and the underclassmen jump at the intrusion of their security found in groups of friends.

The entrance into an unfamiliar surrounding is trying and difficult at times, but the class of "87" surpassed the obstacles of sophomore year and strove for the goals that all must pursue.

Jennifer Fockler says, 'Every day of school is a day closer to vacation!'

"Hmm." David McCurdy ponders over plans for the weekend.

Juniors Exceeding With Intelligence

Taking pride in everything they do.

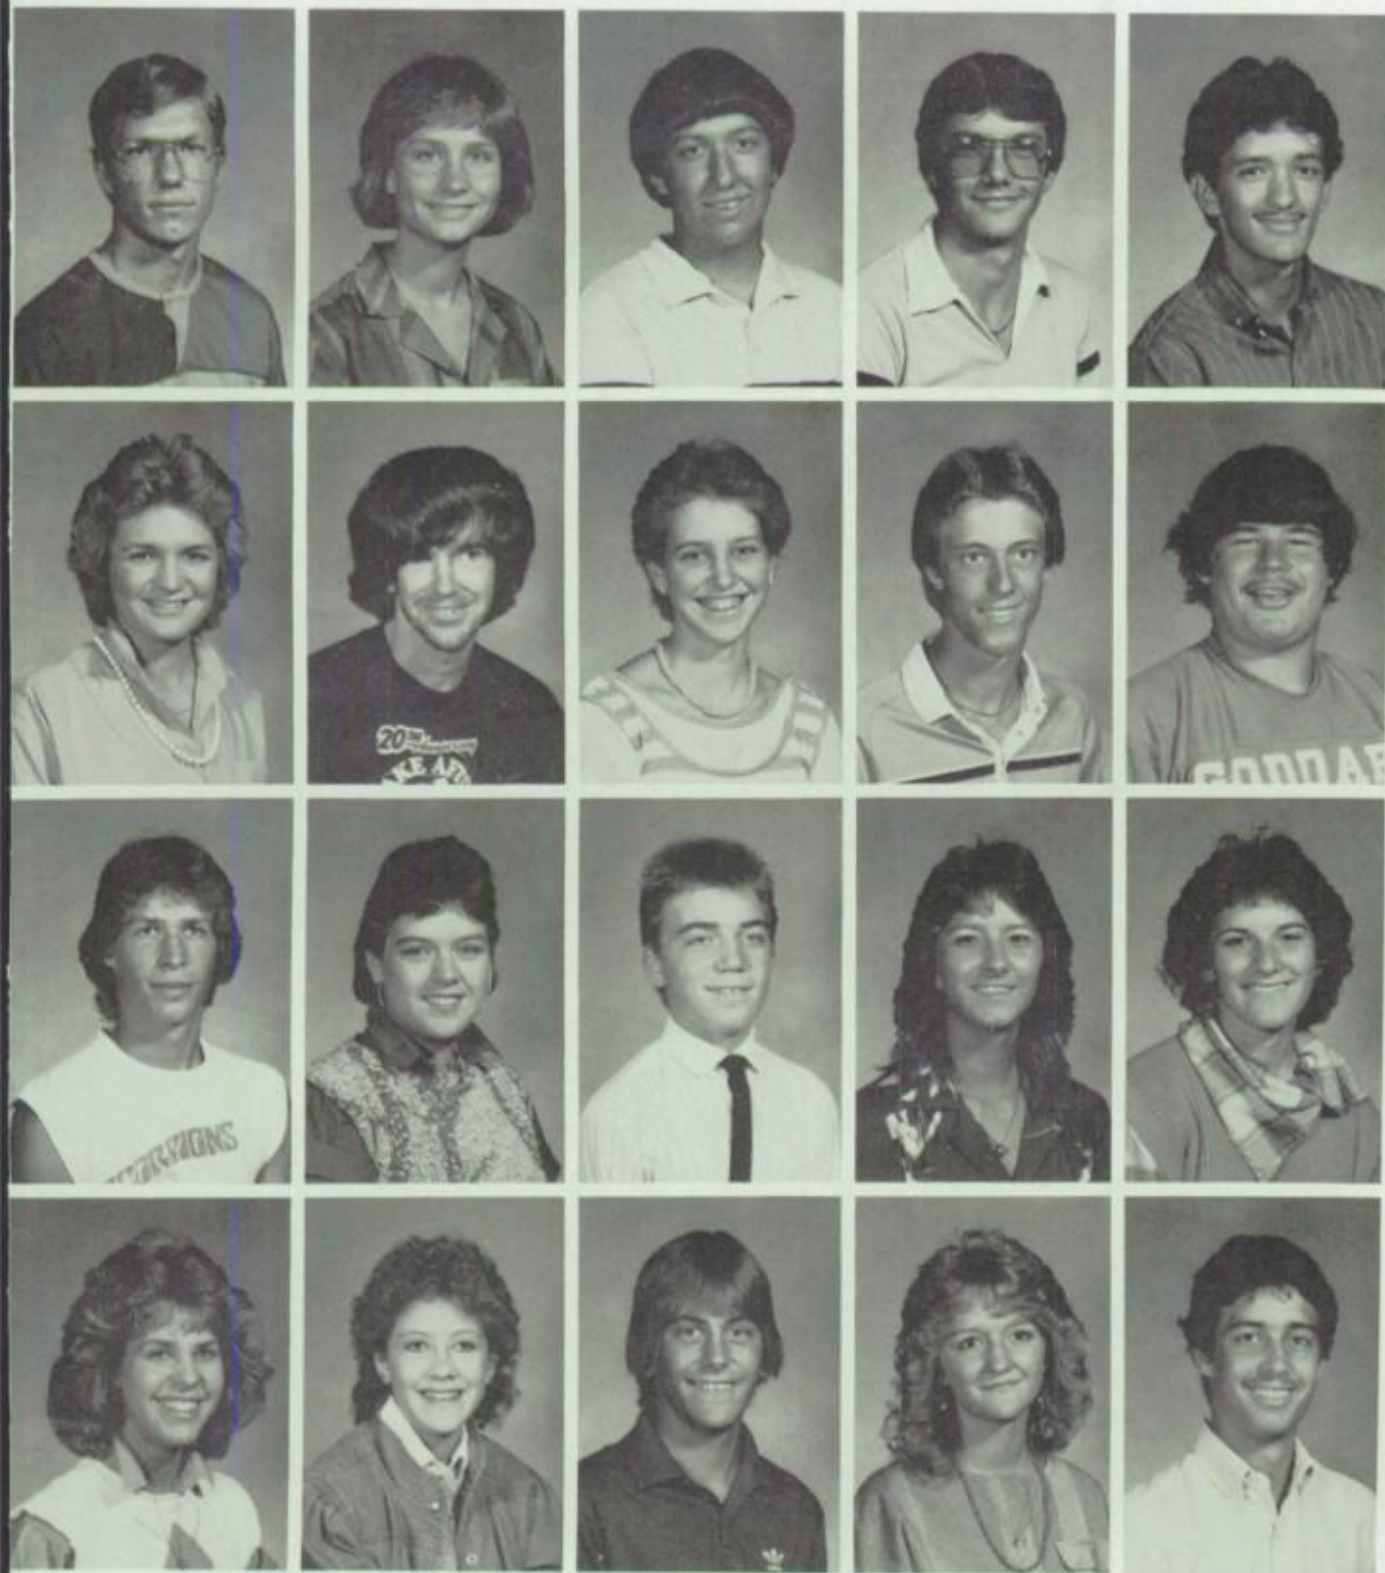

This year's junior class is known by their intelligence. They have the highest number of students on the honor roll, and the largest amount of gifted students, at the present time. The juniors also have a big responsibility during the year. They have to plan and get all the arrangements ready for the prom at the end of the year. It takes a lot of time to decide what band they want and which one is the best. Also,

comes the decision on what decorations to have that everyone will like. The prom, which is made for seniors, is also attended by juniors.

'I think our senior year will be great.' Kim Ward

This is when they can see how all their hard work and effort turned out. The juniors also have to be

thinking about what they want to do after high school since they only have one year left to decide. Kim Ward said, "I think our senior year will be great. I think our class will be a lot closer because it will be our last year." With this statement from Kim, it just show that the juniors are ready to take the challenge!

Facing The Challenge

Seniors pull together.

Two years ago the senior class of eighty-five was just a group of sophomores. As the years progressed and the uncertainties of high school faded away, this average group of students changed into above average people.

They took any challenge or circumstance that faced them. They handled each opportunity as they thought best.

Making these changes, facing challenges and making mistakes, too, was all a part of the learning experience that every student of the class of eighty-five faced.

As the day of commencement rolled around the Seniors thought of the good experiences that oc-

cured, not only in high school but throughout the past thirteen years.

Learning from teachers was a large part of the learning

experience.

Having friends taught the seniors that friendship is a major role throughout life.

All of the information from teachers and the relationship between friends will play an important factor as each senior goes their separate way after graduation.

But the friendships that they made with each other and the teachers as well, will last a lifetime. This is why these seniors are the choice of a new generation.

Seniors Learn To Buckle Down As They Mature

Believe it or not, but They Do Study

Although the senior class has undoubtedly shown their ability to be rowdy, there are times when these same students are hard at work in their classrooms. They have learned over the years that hard work pays off in many different ways . . . it might be an academic scholarship or maybe down the road, a highpaying job, but the class of '85 will never forget the learning experiences at GHS.

As they look back over their

high school years, they see their friends, faculty and the priceless memories that have taken a special place in each of their hearts.

They also see the times of worry and despair . . . especially when grades were coming out and term papers were due. But through it all, the class of '85 has proven beyond a shadow of a doubt, it truly is 'The Choice of a New Generation!'

' . . . the class of '85 will never forget the learning experiences at GHS.'

The Class of 85': "The choice of a new generation."

To type or not to type? That is the question. Rhonda Fields contemplates on whether or not to type during sixth hour.

Born To Be Wild

These are the Best of Times

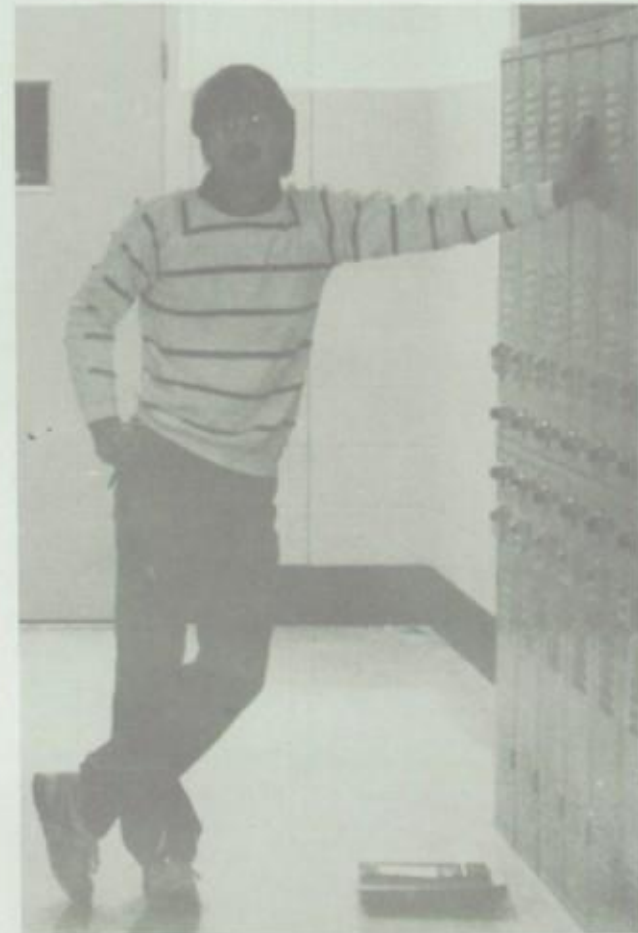

Whitney Blake feels the lockers need a helping hand.

A sigh of relief as Angie Weber remembers her locker combination.

Kirby Greenlee demonstrates, just how exciting life as an office aide can be.

Jamie Pollock was asked what he wanted to do in his spare time, 'I wanna rock!'

This year's senior class has to be one of the wildest ever to hit Goddard Senior High. If there's anyone who knows how to have a good time, it's the class of eighty-five.

Anyone who has really known the senior class of eighty-five knows that these people were born to be wild.

Having a good time is what the seniors of eighty-five seem to live for. Other students have to take time out for their studies, but the majority of the seniors' time is for having fun.

School is a final step towards the day of commencement. They believe in going for it all, by making their last year the best.

Recreation is never a barrier the seniors face. Weekends and holidays are what the class of eighty-five lives for.

After graduation, thoughts of good times with close friends stir about. A few tears are shed as the last of everyone's good-byes are said.

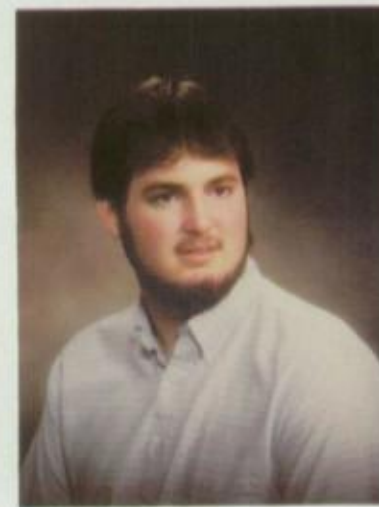

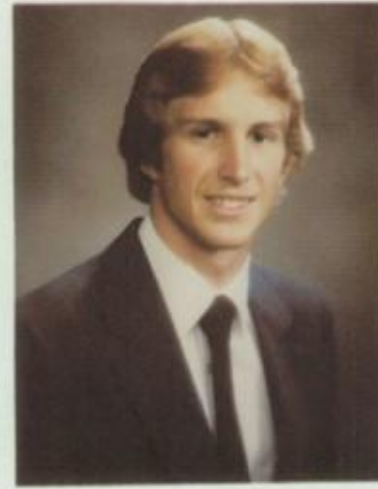

Then when the last one leaves and the doors are shut, the school remains empty with nothing but trademarks and memories. They have created a past so the younger students can create a future.

Making a new life and deciding on many choices is all a part of growing up. Being an adult is now reality and not a fantasy. But having a good time is what life's all about.

Good times make long lasting memories. Every senior will be leaving with many. These are the best of times.

Sunrise Or Sunset? Goddard High School: an End or a Beginning?

Graduation brings many choices. One decision that will be made by the seniors is whether graduation is the end of education or the beginning of new opportunities. Will our heritage be a stumbling block or a stepping stone to the future? Only the seniors themselves will write the ending to this section, but most will make the right choice for the new generation.

Learning To Say "Goodbye."

And "Hello" to New Beginnings

'Oooo,' Jacque Renner and Angie Weber enjoy the 'scenery' during break.

Family: That has taken on a new meaning for us. For thirteen years we have devoted ourselves to education, to learning, to expanding our minds, to becoming the individual all of us now are. We have gone to school. But a school is nothing more than a locker on a wall without people. People who have come together for one purpose — to learn. Along the way we become friends. We have shared our deepest thoughts with one another, laughed, explored our dreams, and reached new heights. From the day we received our first secret kiss, to the day when we, as proud adults, walked the aisle at graduation, we have grown up- and very much together.

Looking back through our cherished, high school memories, whether they may be good, or bad, or whether we may say these were the best years of our lives, we lived them. We make them

unique, and they are ours alone. Through tears of joy and sorrow, laughter and fun, we worked hard, made friends, and grew into a fine new generation of people; and now it is time to move on.

Onward and upwards into new horizons, these horizons we will make our own. We will mold them and shape them- just as every person who touched our lives has shaped us, just as the walls of Goddard High School have taken us in ... they have now let us go ... to be the people we are and will become.

We are the
now
generation.

We are the NOW generation. Ready to plunge 'head-on' into life, ready to take the necessary steps to be all that we know we can become.

Debra Edgington, has been a honor student all of her

school years, a member of the N.H.S. club for two years and a varsity member of the debate squad. Debbie obviously enjoys life and thinks everyone should 'have a good life'

Got the picture? Kenny Putnam fights for the limelight as some of the 'Brother Thrusters' get in on the action.

Tragedy Hits Junior High

Four People Shot

On January 21, 1985 the community of Goddard was changed. Never again could it be the complacent little town it had been that morning. Its complacency was shattered by a gun held by James Alan Kearby, a student at Goddard Junior High. (continued below)

Kearby entered the building, shot and killed the principal, James McGee, and wounded three others, two teachers and a fellow student.

The community rallied around the Junior High with support and love. The Junior High students earned and donated several thousand dollars to honor their slain principal with a memorial. Goddard's Women's Club donated the bell from the first Goddard grade school to hang on the memorial.

James McGee is gone, but his memory will inspire generations of students to come, just he has inspired those of us who mourn today with the Junior High.

"Mr. McGee was a man of love. He loved his family, his God and his job." Junior High Lions Pride '85

Graduation Brings Smiles

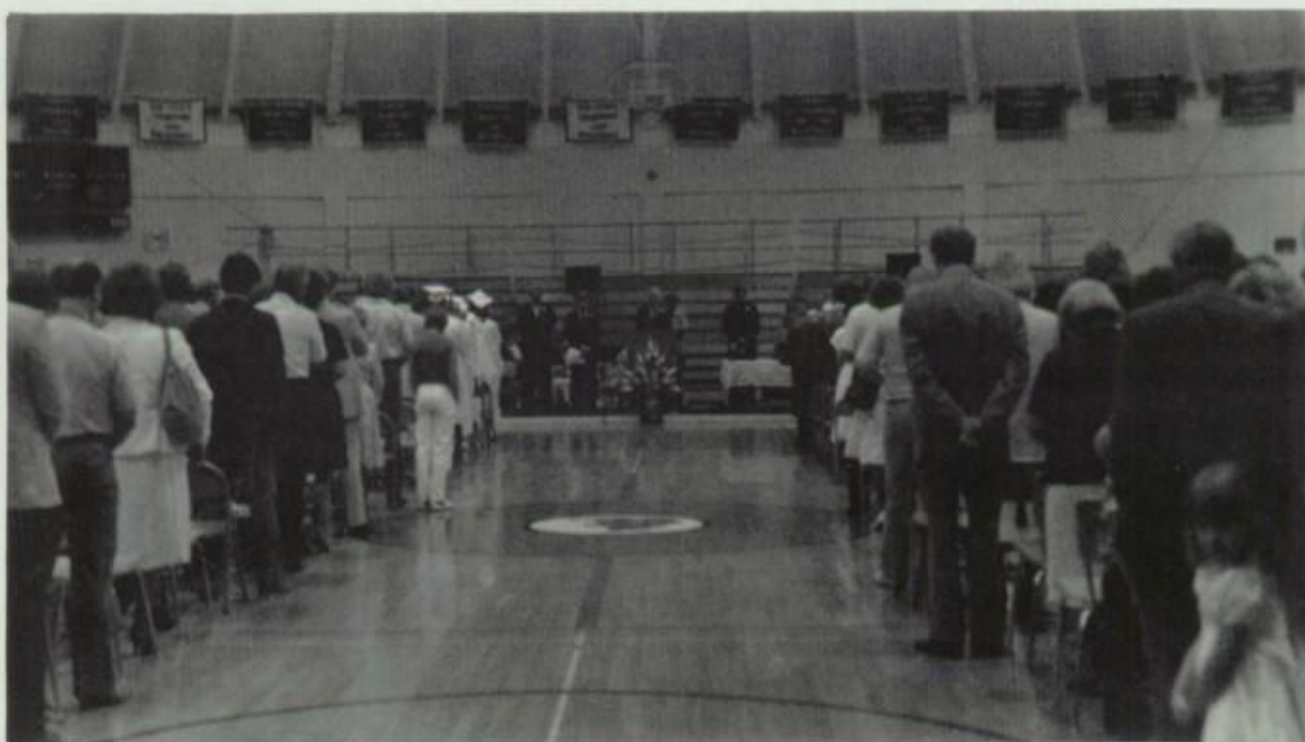

The final step to the future

Laura Lane and Monty McClain lead the graduates in, as the ceremonies commence.

Sunday, May 26, the seniors of the 1984-1985 school year took the final step and ceremoniously graduated. Debra Edgington, Valedictorian and Betty Klassen, gave their respective speeches and as such the day was a beautiful one.

Then came the fun. Afterwards, the Alumnus met in the Commons to share hugs, excited laughter and tears with friends and family. The diplomas were collected in one neat package, but the memories were a collage of remnants picked up through the years. As they left the world, they saw a new group of young adults stepping out, making the choice, to be the new generation, the best generation yet.

Before the diplomas are handed out, a word of prayer is given out to the seniors.

Cindy Morris gives a holler of joy as the ceremonies ended.

The seniors of 1985 prepare to throw their caps into the air as the ceremonies end.

Patricia Walton and Kim Kardatzke sing a very memorable song to the seniors.

Debra Edgington, Betty Klassen and Sandy Landcaster think of what their future holds, during the commencement.

It is weird to know that you'll never go back to high school, as a student. But it is also scary to try to figure out what you're going to do with your life.

Community Involvement The Spirit Of Goddard

Activities involving students in the community are necessary for preparing teenagers for a world of unpredictability. Whether those activities include jobs, attending public services, or merely being kind to others, they all assist in bringing generally distant age groups closer together.

GHS students supported those in the community through the blood mobile, the hamburger and chili feeds, fund-raisers for the Goddard Junior High shooting victims and their families, partici-

pating in the Fall Festival, and by taking on jobs.

The choice to take part in society is a prevalent force in most High Schoolers aspirations, producing a greater confidence and pushing one on to higher expectations in him or herself. In recent years, more teen-agers choose to work for their futures and wish to have a part in the world awaiting them. Through community involvement that part in society is established for this generation.

Goddard graduates show that education pays off by working at the Goddard Bank.

Teachers take a break after many hard hours of work at their retreat.

Many volunteers participated in this years' blood drive.

Rick Bowden gets in a little extra campaigning during the fall festival.

Gary Mellington, working hard at Pizza Hut.

"Learning how to deal with people is very rewarding."

Cindy Piper*

Ready to conquer new frontiers,
 you came,
 unwittingly at first, to play
 within these walls.
 Satisfied, you wandered in fixed realms
 of the present . . .
 your past — measured by the childish dreams
 you sacrificed unwillingly;
 your future no more
 than vague interpretations of hope.
 Yet like the budding flower's
 tentative explorations of the sun,
 you walked those halls. And
 Somewhere . . . in the books you read,
 the questions asked, answered . . . or perhaps
 the things you heard and saw . . .
 a tiny spark ignited
 licking flames that spurred
 your minds into curiosity.
 Listening, learning, breathing
 deeply of strange ideas, you
 stumbled blindly towards that open door,
 each step holding new meaning,
 each movement beginning
 a realization that there are
 no limits save those you set yourselves.
 and pushed onward by your ambitions
 to reach that far tomorrow,
 you continued,
 Slowly becoming aware
 of the ever widening frontiers
 in Time.
